27 procedures by which host fees are transmitted to the City for
28 deposit in the Fund. Solid waste disposal or management
29 facilities that accept construction and demolition debris are
30 exempt from having to pay a host fee on those construction and
31 demolition debris materials generated in the City of

3 to a privately-owned solid waste management facility in Duval

19 in the City's favor, which is in a form acceptable to the City

21 to the City, as a guarantee to the City that all host fee
22 payments that are due, but are deferred, will be paid in the
23 event the industrial byproduct is not sold, used or reused
24 within the deferral period, except that where a solid waste
25 disposal facility is owned by another governmental entity, the
26 City at its discretion and in lieu of a letter of credit, may
27 accept legislation that appropriates the necessary funds, to
28 be paid to the City at the time deferred payments become due
29 at the end of the three year deferral period; and

17 (~~i~~) Haulers delivering construction and demolition debris to a solid
18 waste management facility shall be asked to attest as to whether
19 or not the waste was generated within the City of Jacksonville.
20 The Public Works Department shall establish a policy for
21 implementing the attestation process. Failure by a hauler to
22 provide the attestation described herein or to misrepresent
23 information within the attestation shall be punishable as a Class
24 D penalty pursuant to Section 609.109, Ordinance Code. The
25 operator of a solid waste management facility may rely on such
26 attestation in the determination of the waste's origin. The
27 operator of a solid waste management facility shall not be liable
28 to the City for payment of a host fee where the operator has
29 reasonably relied on such attestation provided by the hauler.

30 (~~j~~) Where the City has issued a Certificate of Public Convenience
