Bill Summary: This bill modifies the Capital Improvements Element of the City of Jacksonville 2045 Comprehensive Plan to update the Five Year Capital Improvements Schedule of Projects.

Background Information: The purpose of this legislation is to update the Five-Year Capital Improvements Element Schedule of Projects, which is a subset of the City's approved CIP. This schedule incorporates projects from the North Florida Transportation Planning Organization's Transportation Improvement Plan, the Long Range Transportation Plan, and the City of Jacksonville's Mobility System Projects. The schedule includes projects funded by local, regional, state, or federal sources, as well as privately funded projects. This modification aligns with Ordinance 2024-505-E, which approved the Fiscal Years 2025-2029 Capital Improvement Plan (CIP). The bill ensures compliance with Section 163.3177(3)(b), Florida Statutes, allowing updates to be made by ordinance without constituting a full amendment to the Comprehensive Plan.
