CRITERIA

Section 656.1310, Ordinance Code, sets forth procedures and criteria for evaluating waivers of the Part 13 sign regulations. Section 656.1302 of the Ordinance Code defines a sign as *"a painting, structure, projected image or device which is placed, erected, constructed or maintained on or in the ground or water, or on or outside of an enclosed building, boat, ship, vessel or other object or structure or affixed or painted on or inside an exterior window of a building for the purpose of display, information, advertisement or attraction of the attention of persons, including posters, pictures, pictorial or reading matter and a letter, word, model, device or representation used in the nature of an advertisement, announcement, attraction or direction."*

Section 656.133(c)1 through 10, Ordinance Code, provides that, with respect to action upon Applications for Sign Waivers, the City Council shall grant a waiver only if substantial competent evidence exists to support a positive finding based on each of the following criteria as applicable:

1. *Will the effect of the sign waiver be compatible with the existing contiguous signage or zoning and consistent with the general character of the area considering population, density, scale, and orientation of the structures in the area?*
2. *Would the result detract from the specific intent of the zoning ordinance by promoting the continued existence of nonconforming signs that exist in the vicinity?*
3. *Could the effect of the proposed waiver diminish property values in, or negatively alter the aesthetic character of the area surrounding the site, and could such waiver substantially interfere with or injure the rights of others whose property would be affected by the same?*
4. *Would the waiver have a detrimental effect on vehicular traffic or parking conditions, or result in the creation of objectionable or excessive light, glare, shadows or other effects, taking into account existing uses and zoning in the vicinity?*
5. *Is the proposed waiver detrimental to the public health, safety or welfare, or could such waiver result in additional public expense, creation of nuisances, or cause conflict with any other applicable law?*
6. *Does the subject property exhibit specific physical limitations or characteristics, which would be unique to the site and which would make imposition of the strict letter of the regulation unduly burdensome?*
7. *Is the request based exclusively upon a desire to reduce the costs associated with compliance and is the request the minimum necessary to obtain a reasonable communication of one's message?*
8. *Is the request the result of a violation that has existed for a considerable length of time without receiving a citation and if so, is the violation that exists a result of construction that occurred prior to the applicant's acquiring the property, not being a direct result of the actions of the current owner?*
9. *Does the request accomplish a compelling public interest such as, for example, furthering the preservation of natural resources by saving a tree or trees?*
10. *Would strict compliance with the regulation create a substantial financial burden when considering the cost of compliance?*

18. Given the above definition of a "sign" and the aforementioned criteria by which the request will be reviewed against, please describe the reason that the waiver is being sought. Provide as much information as you can; you may attach a separate sheet if necessary. Please note that failure by the applicant to adequately substantiate the need for the request and to meet the criteria set forth may result in a denial.

This sign waiver is being sought by the property owner due to the fact that the current price sign does not meet the current setback required by City of Jacksonville Code of Ordinances.

The last face change approved by the City of Jacksonville was approved in 2000 and at that time, was existing at the current setback. All other elements of the sign code have been adhered to with size and area. (Permit approved in 2000 - S-00-15571-000)

1. Granting this waiver will not not impact the location or the general character of the area.
2. The result would not detract from the intent of the zoning ordinance within this vicinity.
3. The sign waiver will not diminish the value of the property or those properties in the surrounding area
4. The existing sign will meet criteria for all other signage elements such as ground clearance and size and not have a detrimental effect on vehicular traffic.
5. The sign waiver will not have an effect to public health, safety or welfare.
6. If the sign was to be moved it would place a burden on the property due to the fact the placement would be located in a traffic area
7. This request is due to the limitations of existing area for sign placement
8. We are not aware of any current violations with the exception of current setback of existing signage.
9. This request allows for the utilization of the existing signage and to distract from further construction on this site.
10. If compliance we required, access to the property would become limited due to the required placement of the sign.
