The Jacksonville Fire and Rescue Department (JFRD) is seeking authorization to amend the scope of CIP project Fire Station #18. The original scope of work included the acquisition property to the north of the fire station, site clearing and incorporating the land into the station's footprint. Evaluations have determined the property acquisition and parking expansion are no longer feasible within the current budget and timeline. The updated scope will concentrate on enhancing the station's exterior appearance and community integration. Items included in the revised scope include: updating the station's exterior to provide a welcoming appearance, installation of an art mural the reflects the neighborhood's identity and cultural heritage, landscaping improvements to create a visually appealing environment, and addition of exterior lighting to improve aesthetics, visibility and safety. The scope of work revision is applicable to current year appropriations.
