Capitol Park East PUD Written Description October 30, 2019

I. SUMMARY DESCRIPTION OF THE PROPERTY

- A. Current Land Use Category: CGC
- B. Current Zoning District: PUD
- C. Requested Zoning District: PUD
- D. Real Estate Number: 106939-0000
- E. Development Area: Suburban Area

II. SUMMARY AND PURPOSE OF THE PUD

D.R. Horton, Inc. – Jacksonville (the “Applicant”) proposes to rezone approximately 16.99 acres of land from Planned Unit Development (“PUD”) to PUD. The Property is comprised of two parcels of land under the foregoing Real Estate Number. The Southwest Parcel is 4.07 acres in size and is located in the southwest corner of the Airport Center Drive East and New Berlin Road intersection. The North Parcel is 12.92 acres in size and is located on the north side of Airport Center Drive East across from its intersection with New Berlin Road, and is bounded on the west by Vanguard Road, on the north by the Parque Diane subdivision, and on the east by the Lindsey’s Crossing Unit Two subdivision. Both parcels are more particularly described in the legal descriptions attached as **Exhibit “1”** to the application (the “Property”).

The Property shall be developed in accordance with this PUD Written Description and the PUD Conceptual Site Plan attached hereto as **Exhibit “E.”**

The Property is currently part of the Brandenburg Gates PUD (Ordinance 2002-0665-E) which permitted a mix of single-family residential and commercial uses. On the Brandenburg Gates PUD site plan the Property was designated for commercial uses comprised of shopping center and outparcels. The single-family residences permitted under the Brandenburg Gates PUD were constructed within the Lindsey’s Crossing Unit Two subdivision. The balance of the land subject to the Brandenburg Gates PUD, being most of the Property, remained vacant and was acquired by the Jacksonville Transportation Authority (the “JTA”) in 2004.

Thereafter the JTA constructed Airport Center Drive East, the alignment of which traverses the Property from northwest to southeast. The alignment divides the Property into the North Parcel as described in **Exhibit “1”**, and a second parcel south of Airport Center Drive East (the “South Parcel”). The JTA also realigned New Berlin Road into a T-intersection with Airport Center Drive East, dividing the South Parcel into a Southeast Parcel and the Southwest Parcel as described in **Exhibit “1”**. The Southeast Parcel is excluded from the application because its configuration and the location of a JTA stormwater pond in its center renders it unsuitable for commercial development. Roughly the west half of the Southwest Parcel is the site of a second stormwater pond, but the balance thereof remains suitable for commercial development.

The Property is surrounded by developed and undeveloped land or land currently under development for similar commercial and residential uses. With the exception of a completed single family residential development in the southeast quadrant of the Airport Center Drive East and New Berlin Road intersection zoned RLD-80 (Lindsey’s Crossing), the Property is bordered on all sides by three similar mixed commercial and residential PUDs.

The Applicant is proposing to rezone the Property to permit the development of no more than one hundred and thirty (130) townhomes on the North Parcel and compatible neighborhood commercial uses on the Southwest Parcel.

The 2030 Comprehensive Plan Future Land Use Map designation for the Property is the Community/General Commercial (“CGC”) category in the Suburban Development Area. The proposed PUD will satisfy the Comprehensive Plan requirements for development within the CGC category.

This rezoning proposes to provide for a mix of townhome residences and neighborhood commercial uses, designed to be compatible with the surrounding neighborhoods and communities.

III. SITE SPECIFICS

The Property is currently vacant. Surrounding land use designations, zoning districts, and existing uses are as follows:

	<u>Land Use</u>	<u>Zoning</u>	<u>Use</u>
South	LDR	PUD & RLD-80	Single family residences
East	LDR	PUD	Single family residences
North	LDR	PUD	Single family residences
West	LDR & CGC	PUD	Single family residences & Vacant

IV. PERMITTED USES AND RESTRICTIONS

As shown on the Conceptual Site Plan, the PUD proposes development of the North Parcel and the Southwest Parcel. The PUD permits the following uses or combinations thereof: townhomes (fee simple or condominium) and commercial neighborhood. The parcels are identified solely for the purposes of defining permitted uses within the PUD; they do not define or correlate to ownership and do not subdivide the Property.

A. Parcels – Permitted Uses.

Within the **Southwest Parcel**, Limited Commercial Neighborhood uses as described below are permitted.

Within the **North Parcel**, Townhome Residential uses as described below are permitted.

Silviculture, wetland preservation, mitigation, and restoration, and stormwater management as permitted by the applicable regulatory agencies, is permitted on both parcels.

Accessory uses shall not be located in required front or side yards except air conditioning compressors or other equipment designed to serve the main structure may be located in a required yard but not less than two feet from a lot line.

Patios and porches, including screened patios/porches with a structural roof, outdoor dining, terraces, courtyards, or similar exterior structures, shall be permitted for each unit and may be located within the applicable minimum setback, but shall not be located within five (5) feet of any property line.

4. *Number of units per building.* Up to ten (10) units shall be permitted in any single townhome building.

V. OVERALL DEVELOPMENT STANDARDS AND CRITERIA

A. Access, Parking, Loading & Sidewalks.

1. *Vehicular Access:*

- a. As shown on the Conceptual Site Plan, a single point of access to the North Parcel will be via Airport Center Drive East only.
- b. Access to the Southwest Parcel will be via Airport Center Drive East and/or New Berlin Road.
- c. The location and design of all access points and interior access drives is conceptual, and the final location and design of all access points and interior access drives is subject to the review and approval of the City Traffic Engineer and the City Planning and Development Department.

2. *Parking Requirements:*

Off-street parking within both parcels will be provided in accordance with Part 6 of the Zoning Code. Additionally, the residential driveways shall be of sufficient length to accommodate a parked vehicle such that the vehicle does not encroach upon, or hang over, the sidewalk.

3. *Loading Requirements:*

Loading will be provided in accordance with Part 6 of the Zoning Code.

4. *Pedestrian Access/Sidewalks, Trails and Bikeways:*

- a. **Internal:** The Property shall be designed to function efficiently for both cars and pedestrians, including sufficient internal and external connectivity. Sidewalks shall provide safe linkages between the

users and amenities within the Property and will be constructed as required under the 2030 Comprehensive Plan and Jacksonville Ordinance Code. Site lighting shall be designed to promote a sense of security in walkways, parking areas, open spaces, entrances, and along streets.

- b. External: At the time a parcel is developed, exterior sidewalks shall be provided as required under the 2030 Comprehensive Plan and in accordance with the Ordinance Code.

B. Lighting.

1. *Parking areas:*

- a. Maximum height: Twenty (20) feet.
- b. Within the Southwest Parcel light fixtures shall utilize partial and full cut-offs to direct the light downward and away from residential properties so as to prevent glare or excessive light on any residential properties.
- c. Within the North Parcel light fixtures shall utilize partial and full cut-offs to direct the light downward and away from external residential properties so as to prevent glare or excessive light on any external residential properties.

- 2. *Buildings:* Within the Southwest Parcel all display and landscape lighting should be directed toward the focal points and away from pedestrians and residential properties. Any lighting associated with a canopy should be recessed into the structure or otherwise integrated with the design of the canopy.

C. Signage.

The purpose of these sign standards is to establish a coordinated signage program that provides for the tenants and/or uses identification and for directional communication in a distinctive and aesthetically pleasing manner. All project identity and directional signs shall be architecturally compatible with the project or buildings represented. Signs may be internally or externally illuminated. Signage shall not obstruct horizontal sight distance.

- 1. *North Parcel:* Permissible signage and signage criteria for the North Parcel are as follows:
 - a. One double faced illuminated monument sign (or two single faced monument signs) up to twelve (12) feet in height and twenty four (24) square feet in area shall be permitted at each entrance on Airport Center Drive East is permitted. All such signs will be located a minimum of two hundred (200) feet apart.

- b. Directional signs, real estate signs and construction signs are permitted in accordance with the regulations in Part 13 of the Zoning Code.
 - c. Temporary sign(s) up to twelve (12) square feet in area and twelve (12) feet in height for model homes are permitted.
2. *Southwest Parcel*: Permissible signage and signage criteria for the Southwest Parcel are as follows:
- a. One double-faced monument sign two hundred (200) square feet in area and twenty (20) feet in height is permitted.
 - b. Multiple tenants within one building or a connected series of buildings may be identified on the monument sign.
 - c. Wall signs are permitted and shall not exceed ten percent of the square footage of the occupancy frontage or respective side of the building abutting a public right of way.
 - d. One (1) under the canopy sign per occupancy not exceeding a maximum of eight (8) square feet in area is permitted; provided, however, any square footage utilized for an under the canopy sign shall be subtracted from the allowable square footage that can be utilized for wall signs.
 - e. Directional signs, real estate signs and construction signs are permitted in accordance with the regulations in Part 13 of the Zoning Code.
 - f. One (1) temporary development sign advertising the anticipated uses is permitted not to exceed twenty-four (24) square feet in area and ten (10) feet in height.

D. Buffering and Fencing.

1. *North Parcel*: To mitigate the proximity of the North Parcel to the adjacent residential development situated to the north and east, the following shall be required:
- a. a 10 foot natural buffer extending inward from the property line;
 - b. an 8 foot fence on the interior boundary of the natural buffer; and,
 - c. a minimum 10 foot rear yard setback between the natural buffer and buildings.

2. *Southwest Parcel:* Where the Southwest Parcel is adjacent to a residential district, the following shall be required:
 - a. a 10 foot natural buffer extending inward from the property line;
 - b. an 8 foot fence on the interior boundary of the natural buffer; and,
 - c. a minimum 10 foot rear yard setback between the natural buffer and buildings.

E. Landscaping.

Landscaping on the North Parcel and the Southwest Parcel will be constructed and maintained in accordance with the requirements set forth in Part 12 of the Zoning Code. The landscaped areas will allow for the inclusion of native or ornamental vegetation, trees, and shrubs, fencing and irrigation.

F. Recreation/Open Space.

For the townhome uses within the PUD, to the extent applicable, active recreation and open space shall be provided in accordance with Section 656.420 of the Ordinance Code and Objective 2.2.4 of the Recreation and Open Space Element of the 2030 Comprehensive Plan.

G. Stormwater Retention.

Stormwater retention shall meet the requirements of the Jacksonville Ordinance Code and other applicable local and state regulations, including the St. Johns River Water Management District (the “SJRWMD”).

H. Utilities.

JEA will provide water, sewer and electricity for the Property.

I. Wetlands.

No impacts to onsite wetlands are anticipated with the development of the Property. However, to the extent any wetland impacts occur, they will be mitigated in accordance with the rules and regulations of the SJRWMD.

J. Modifications.

Amendment to the PUD once approved may be accomplished through either an administrative modification, minor modification, or by filing an application for rezoning as authorized by Section 656.341 of the Zoning Code.

K. Architectural Guidelines.

Buildings, structures, and signage shall be architecturally compatible with those in other uses within the PUD. Buildings, structures, and signage shall be constructed and painted with

materials which are aesthetically compatible. Satellite dishes and other antennas which could be used for reception of television and other similar broadcasts are prohibited unless such satellite dishes or antennas are located either on the rooftop or a side of a building which is not adjacent to a public right of way. Satellite dishes or antennas must be screened from view from adjacent property. Satellite dishes or antennas located on the side of a building must be screened from any roadways by landscaping and/or opaque fencing which is aesthetically compatible with the other structures located, or to be located, on the Property.

Dumpsters, propane tanks, and similar appurtenances shall be kept behind substantially opaque enclosures composed of the same material and painted the same color as the structures located, or to be located, on the Property, such that the dumpster, propane tank, and similar appurtenances are screened from view from surrounding roadways and adjacent properties. Utility tracts, maintenance areas and loading/unloading zones shall be screened from surrounding roadways by landscaping and/or opaque fencing which is aesthetically compatible with the other structures located on the Property.

No outdoor loudspeaker system shall be allowed.

L. Construction Offices/Model Units/Real Estate Rental or Sales.

On-site, temporary construction offices/trailers/model homes/rental or sales offices will be permitted within the PUD. Real estate or sales activities are permitted within model units.

M. Conceptual Site Plan.

The configuration of the development as depicted on the Conceptual Site Plan is conceptual, and revisions to the Conceptual Site Plan, including but not limited to the locations of the access points, internal circulation, stormwater pond(s), parking, and buildings may be required as the proposed development proceeds through final engineering and site plan review, subject to review and approval of the Planning and Development Department.

N. Phasing.

The Property may be developed in a single phase or in multiple phases. Verification of compliance or modifications may be sought for the entire Property, individual parcels, or portions of parcels, as they are developed.

O. Special Conditions.

1. Townhome development shall not exceed 130 units.
2. The covenants, conditions and restrictions governing the townhome development must include the following provisions enforceable by the owners' association:
 - a. Initial sales of townhome for rent shall not exceed 10% at any one time.

- b. Parking of vehicles across any portion of a sidewalk within the townhome development is prohibited.
3. Due to concerns about noise and potential nuisance lighting, no basketball courts shall be installed within the recreation portions of the townhome development.
4. If the roads in the townhome development are private, the owners' association shall be responsible for maintaining the same, and purchasers of units from the developer must sign a written acknowledgment thereof.
5. Along the north and east boundaries of the townhome development, the following buffers, fencing and setback shall be required:
 - a. a 10 foot natural buffer extending inward from the property line;
 - b. an 8 foot fence on the interior boundary of the natural buffer; and,
 - c. A minimum 10 foot rear yard setback between the natural buffer and buildings.
6. Adjacent to existing residential single family, within the interior boundary of the natural buffer a minimum of one 3" caliper shade tree shall be planted every 25 linear feet except where such tree would require the removal of an existing shade tree of 3" caliper or greater.
 - a. Trees planted on individual platted lots will be owned and maintained by each property owner. However, the owners of the individual lots shall not be permitted to remove trees required by Part 12 of the Zoning Code, and this prohibition shall be included in the Conditions, Covenants and Restrictions.
 - b. Trees planted in areas deemed to be common area space will be owned and maintained by the owners' association.
7. Along the roadway bordering the southern boundary of the North Parcel (the Southern Boundary), the following buffering is required:
 - a. Within Buffer Sections "C-C" and "D-D" as delineated on the Site Plan, fencing and landscaping shall be installed in accordance with the figure shown on Site Plan Attachment 1.
 - b. Within those portions of the Southern Boundary that exclude the foregoing Buffer Sections "C-C" and "D-D", trees shall be planted as specified in Sec. 656.1222, Ordinance Code, but no fencing is required.

VI. PRE-APPLICATION CONFERENCE.

A pre-application conference was held regarding this application on March 15, 2019.

VII. JUSTIFICATION FOR THE PUD REZONING.

As described above, the PUD is being requested to permit a townhome development with related neighborhood commercial uses designed to be compatible with and serve the surrounding neighborhoods and communities. The PUD will have a common scheme of development, provides for flexibility in the site design which could not otherwise be accomplished through conventional zoning and provides for restrictions to ensure consistency with the surrounding zoning and existing uses.

VIII. PUD/DIFFERENCE FROM USUAL APPLICATION OF THE ZONING CODE.

The PUD differs from the usual application of the zoning code in the following respects:

IX. LAND USE TABLE.

A Land Use Table is attached hereto as **Exhibit “F.”**

X. NAME OF DEVELOPMENT TEAM

Developer and Contract Purchaser: D.R. Horton, Inc. – Jacksonville
 Current Owner: Jacksonville Transportation Authority
 Planner/Engineer: Taylor & White, Inc.

XI. PUD REVIEW CRITERIA

A. Consistency with Comprehensive Plan.

The Property is within the CGC – Suburban Area future land use category. The PUD proposes a mix of townhome residential uses and neighborhood commercial uses in compliance with the CGC land use category. The proposed PUD would specifically advance the following Objectives and Policies:

Future Land Use Element:

Objective 1.1: Ensure that the type, rate, and distribution of growth in the City results in compact and compatible land use patterns, an increasingly efficient urban service delivery system and discourages proliferation of urban sprawl through implementation of regulatory programs, intergovernmental coordination mechanisms, and public/private coordination.

Policy 1.1.5: The amount of land designated for future development should provide for a balance of uses that:

- A. Fosters vibrant, viable communities and economic development opportunities;
- B. Addresses outdated development patterns;
- C. Provides sufficient land for future uses that allow for the operation of real estate markets to provide adequate choices for permanent and seasonal residents and businesses and is not limited solely by the projected population.

FLUE Policy 1.1.7: Future rezonings shall include consideration of how the rezoning furthers the intent of FLUE Policy 1.1.5.

FLUE Policy 1.1.9: Permit development only if it does not exceed the densities and intensities established in the Future Land Use Element as defined by the Future Land Use map category description and their associated provisions.

Policy 1.1.10: Gradual transition of densities and intensities between land uses in conformance with the provisions of this element shall be achieved through zoning and development review process.

Policy 1.1.12: Promote the use of Planned Unit Developments (PUDs), cluster developments, and other innovative site planning and smart growth techniques in all commercial, industrial and residential plan categories, in order to allow for appropriate combinations of complementary land uses, and innovation in site planning and design, subject to the standards of this element and all applicable local, regional, State and federal regulations.

FLUE Policy 1.1.18. Prohibit scattered, unplanned, urban sprawl development without provisions for facilities and services at levels adopted in the 2030 Comprehensive Plan in locations inconsistent with the overall concepts of the Future Land Use Element and the Development Areas and the Plan Category Descriptions of the Operative Provisions.

Policy 1.1.22: Future development orders, development permits and plan amendments shall maintain compact and compatible land use patterns, maintain

an increasingly efficient urban service delivery system and discourage urban sprawl as described in the Development Areas and the Plan Category Descriptions of the Operative Provisions.

FLUE Policy 2.2.8: Encourage the redevelopment and revitalization of run-down and/or under-utilized commercial areas through a combination of regulatory techniques, incentives and land use planning. Adopt redevelopment and revitalization strategies and incentives for private reinvestment in under-utilized residential and/or commercial areas where adequate infrastructure to support redevelopment exists.

FLUE Objective 6.3. The City shall accommodate growth in Jacksonville by encouraging and facilitating new infill development and redevelopment on vacant, bypassed and underutilized land within areas that already have infrastructure, utilities, and public facilities, while addressing the needs of City residents.

B. Consistency with the Concurrency Management System.

The PUD will comply with the Concurrency and Mobility Management System.

C. Allocation of Residential Land Use.

The PUD is consistent with land use allocations under the 2030 Comprehensive Plan.

D. Internal Compatibility/Vehicular Access.

The PUD provides for integrated design and compatible uses within the PUD.

E. External Compatibility / Intensity of Development.

The PUD is compatible with surrounding uses. The proposed neighborhood commercial uses at this location will serve the surrounding community by providing easily accessible, local retail uses. Additionally, the townhomes will fill a need for an alternative form of residential use while still being compatible with adjacent single family uses.

F. Maintenance of Common Areas and Infrastructure.

All common areas will be maintained by the owner, a management company or one or more owners or owners' association(s).

G. Open Space.

As shown on the Conceptual Site Plan, the PUD provides ample open space and recreational opportunities for all residential uses consistent with the Zoning Code and the 2030 Comprehensive Plan.

H. Impact on Wetlands.

The developer does not intend to impact any wetlands on the Property. However, any wetland impacts that occur will be in accordance with the rules and regulations of the SJRWMD.

I. Listed Species Regulations.

The Property is approximately 16.99 acres and as such a listed species survey is not required.

J. Off-Street Parking & Loading Requirements.

Off-street parking and loading will be provided consistent with the requirements in Chapter 656, Part 6 of the Jacksonville Zoning Code.

K. Sidewalks, Trails, and Bikeways.

The PUD will comply with the City of Jacksonville 2030 Comprehensive Plan and Jacksonville Ordinance Code with regard to Sidewalks, Trails, and Bikeways.
