WHEREAS, the Land Use and Zoning Committee, after due notice held a public hearing and having duly considered both the testimonial and documentary evidence presented at the public hearing, has made its recommendation to the Council; now therefore

BE IT ORDAINED by the Council of the City of Jacksonville: Section 1. Adoption of Findings and Conclusions. Council has considered the recommendation of the Land Use and Zoning Committee and reviewed the Staff Report of the Planning and administrative Department concerning deviation Development Application AD-24-71, which requests to reduce the area of situational compatibility overlay zone buffer between a proposed Industrial Light (IL) Zoning District from a Residential Low Density (RLD) Zoning District from 150 feet to 15 feet. Based upon the competent, substantial evidence contained in the record, the Council hereby determines that the requested administrative deviation meets each of the following criteria required to grant the request pursuant to Section 656.109(h), Ordinance Code, as specifically identified in the Staff Report of the Planning and Development Department:

- (1) There are practical or economic difficulties in carrying out the strict letter of the regulation;
- (2) The request is not based exclusively upon a desire to reduce the cost of developing the site, but would accomplish some result that is in the public interest, such as, for example, furthering the preservation of natural resources by saving a tree or trees;
- (3) The proposed deviation will not substantially diminish property values in, nor alter the essential character of, the area surrounding the site and will not substantially interfere with or injure the rights of others whose property would be affected by the deviation;
  - (4) The proposed deviation will not be detrimental to the public

health, safety or welfare, result in additional public expense, the creation of nuisances, or conflict with any other applicable law;

- (5) The proposed deviation has been recommended by a City landscape architect, if the deviation is to reduce required landscaping; and
- (6) The effect of the proposed deviation is in harmony with the spirit and intent of the Zoning Code.

Therefore, administrative deviation Application AD-24-71 is hereby approved.
