GENERAL INFORMATION

Application for Rezoning Ordinance **2024-0147** seeks to rezone approximately 1.80± acres of land from Agriculture (AGR) to Residential Low Density-100A (RLD-100A). There is a companion small-scale Land Use Amendment, seeking to amend the existing land use from Agriculture (AGR) to Low Density Residential (LDR) under Ordinance **2024-146/L-5899-23C**.

There is an existing single family dwelling on the property that was added in 2022. The applicant is seeking the rezoning in order to add one additional dwelling to the property.

STANDARDS, CRITERIA AND FINDINGS

Pursuant to Section 656.125 of the Zoning Code, an applicant for a proposed rezoning bears the burden of proving, by substantial competent evidence, that the proposed rezoning is consistent with the City's comprehensive plan for future development of the subject parcel. In determining whether a proposed rezoning is consistent with the 2045 Comprehensive Plan, the Planning and Development Department considers several factors, including (a) whether it is consistent with the functional land use category identified in the Future Land Use Map series of the Future Land Use Element; (b) whether it furthers the goals, objectives and policies of the comprehensive plan; and (c) whether it conflicts with any portion of the City's land use regulations. Thus, the fact that a proposed rezoning is permissible within a given land use category does not automatically render it consistent with the 2045 Comprehensive Plan, as a determination of consistency entails an examination of several different factors.

1. *Is the proposed rezoning district consistent with the functional land use category identified in the 2045 Comprehensive Plan?*

Yes. In accordance with Section 656.129 *Advisory recommendation on amendment of Zoning Code or rezoning of land* of the Zoning Code, the Planning and Development Department finds that with the approval of the companion small-scale Land Use Amendment (**2024-0146/L-5899-23C**) the subject property will be located in the LDR functional land use category according to the Future Land Use Map series (FLUMs) adopted as part of the 2045 Comprehensive Plan. According to the Future Land Use Element (FLUE), Low Density Residential (LDR) in the Suburban Development Area is intended to provide for low density residential development. Principal uses include single family and multi-family dwellings. The maximum gross density in the Suburban Development Area shall be 7 units/acre when centralized water and sewer are available. JEA does not have a sewer main available within ¼ mile of this property. The maximum gross density shall be 2 units per acre and the minimum lot size shall be 1/2 of an acre when both centralized potable water and wastewater services are not available. According to the amendment application the applicant will be utilizing well and septic. However, development should connect to JEA water pursuant to the Infrastructure Element policies below.

The proposed rezoning to RLD-100A is consistent with the proposed LDR land use pursuant to Ordinance 2024-147.

2. *Does the proposed rezoning further the goals, objectives and policies of the 2045 Comprehensive Plan?*

Yes. The proposed rezoning is consistent with the following Goals, Objectives, and Policies of the 2045 Comprehensive Plan, Future Land Use Element:

Objective 1.1

Ensure that the type, rate, and distribution of growth in the City results in compact and compatible land use patterns, an increasingly efficient urban service delivery system and discourages proliferation of urban sprawl through implementation of regulatory programs, intergovernmental coordination mechanisms, and public/private coordination.

Though the request is a decrease in lot size requirement from two and a half acres to a half-acre, the increase in density within the LDR land use category is compatible with the surrounding properties.

Policy 1.1.22

Future development orders, development permits and plan amendments shall maintain compact and compatible land use patterns, maintain an increasingly efficient urban service delivery system and discourage urban sprawl as described in the Development Areas and the Plan Category Descriptions of the Operative Provisions.

The proposed decreased lot size, to a half-acre, is consistent with the above policy, and provides a gradual and compatible transition of density in the area.

3. *Does the proposed rezoning conflict with any portion of the City's land use regulations?*

No. The proposed rezoning is not in conflict with any portion of the City's land use regulations. The subject property will meet the requirements of the RLD-100A zoning district as set forth in the Zoning Code.

SURROUNDING LAND USE AND ZONING

The 1.80-acre subject property includes a single-family residential home and is located on the west side of Cranbrooke Road at the southwest quadrant of the intersection of Cranbrooke Road and Garden Street. According to the City's Functional Highway Classification Map, Cranbrooke Road is a local roadway and Garden Street is classified as a collector roadway. The proposed RLD-100A zoning district permits development well suited to the contiguous residential development density as a transitional density. The area along Garden Street is largely residential in nature and the predominant zoning district found is AGR, however there are multiple subdivisions with smaller lot sizes. Surrounding land uses and zoning districts are as follows:

Adjacent Property	Land Use Category	Zoning District	Current Use(s)
North	AGR/LDR	AGR/ RLD-50	Single-family dwellings
East	AGR	AGR	Single-family dwellings
South	AGR	AGR	Single-family dwellings
West	AGR	AGR	Single-family dwellings

SUPPLEMENTARY INFORMATION

Upon visual inspection of the subject property on March 13, 2024, the required Notice of Public Hearing signs were posted.

RECOMMENDATION
