

**PUD WRITTEN DESCRIPTION
11153 BEACH BOULEVARD PUD
June 6, 2025**

I. PROJECT DESCRIPTION

- A. Number of acres, location of site, existing use, surrounding uses, types of businesses, and proposed uses: Applicant proposes to rezone approximately 6.82 acres of property to permit expansion of the existing commercial development on the property located at 11153 Beach Boulevard (RE# 163505 0050) as more particularly described in Exhibit 1 (the “Property”) and depicted in the conceptual site plan attached as Exhibit 4 (the “Site Plan”). The Property is located within the CGC and LDR land use categories, the Urban and Suburban Development Areas, and is zoned CCG-2 and RLD-60.

The Property is currently developed with a multi-tenant commercial center, anchored with an international grocery and other retail offerings and a mix of personal and health services. Due to the great demand and success of the existing uses, this PUD is filed to accommodate expansion of the existing building as well as permit a standalone building to the east. The standalone building is approximately twenty-three thousand eight hundred (23,800) square feet (the “Eastern Building”) intended for commercial use. In connection with this development plan, a land use amendment to Light Industrial is requested for a portion of the Property to permit butcher and live animal processing internal to the expansion area, which will support the existing international grocery’s offering of fresh and humanely processed poultry and meat. The expansion of the existing building will also include additional warehouse/storage space as well as new retail storefronts.

The surrounding land use and zoning designations are as follows:

<i>Direction</i>	<i>Land Use</i>	<i>Zoning</i>	<i>Existing Use</i>
North	LDR	RLD-60	Single-family / undeveloped
East	CGC	CCG-2	Utility / warehouse
South	CGC	CCG-1 / CCG-2	Commercial strip center
West	CGC	CCG-2	Bowling / flea market

- B. Project name: 11153 Beach Boulevard PUD.
- C. Project engineer: Almond Engineering, P.A.
- D. Project developer: My Jax, LLC.
- E. Project agent: Driver, McAfee, Hawthorne & Diebenow, PLLC.
- F. Current land use designation: CGC

- G. Current zoning district: CCG-2 and RLD-60.
- H. Requested land use designations: CGC and LI.
- I. Requested zoning district: PUD.
- J. Real estate number: 163505 0050.

II. QUANTITATIVE DATA

- A. Total acreage: 6.82 acres.
- B. Maximum amount of enclosed nonresidential square footage: One hundred fifty thousand (150,000) square feet.

III. STATEMENTS

- A. How does the proposed PUD differ from the usual application of the Zoning Code?

This PUD generally adopts the CCG-2 zoning district but permits wholesaling, warehousing, storage, distributorship business, and butcher and live animal processing where the total operation for any of the above delineated uses do not, individually, require more than 15,000 square feet of floor space and all merchandise and animals are stored and processed within an enclosed building. All other uses are subject to the square footage limitation in II.B. of this Written Description. Live animal processing may only occur within the LI land use category on the Property and in conjunction with an approved commercial use. Adult entertainment, dancing establishments, nightclubs, retail sale of alcohol for off-premises consumption, and racetracks are prohibited. The minimum rear setback is ten (10) feet. Butcher and live animal processing requires one (1) parking space. There shall be no maximum parking cap, parking spaces may be shared among uses with off-setting hours, and parking spaces may be located on a separate lot or parcel if the Property is subdivided in the future. All parking spaces may be impervious. Landscaped pedestrian connections contemplated in Section 656.607(b) for the parking lots shall not be required. There shall be a minimum of two (2) loading areas for the PUD, which shall be screened from Beach Boulevard but are not required to be screened from Cortez Road. Bicycle parking shall be provided at a rate of five (5) percent of the parking spaces onsite. The sidewalk to the rear of the twenty-three thousand eight hundred (23,800) square foot building shall have a minimum five (5) foot width. Internal uncomplementary landscape buffers shall not be required for different uses on the Property. The perimeter landscaping between the parking lot and the existing commercial centers identified on the Site Plan with addresses 11211 and 11233 Beach Boulevard shall not require trees but shall contain grass, mulch, or other natural landscaping.

B. Explanation of proposed deviations or waivers.

Butcher and live animal processing is permitted as an ancillary use to provide additional poultry and meat options to customers of the international grocery on the Property. Context-sensitive limitations such as capping the size of the operation and requiring all activities to be conducted indoors ensures internal and external compatibility. For the same reason, adult entertainment, dancing establishments serving alcohol, and nightclubs are prohibited to maintain the family-friendly retail and services. The minimum setback is ten (10) feet consistent with the CCG-1 zoning district. The uses contemplated within the Eastern Building are commercial uses that are in line with the CCG-1 zoning district. Parking for butcher and live animal processing is set to one (1) space because the use is not called out in Part 6 and is a support service to the grocery store. The other parking and loading relief provided herein is provide flexibility in the buildout and given the unique shape of the Property. The sidewalk behind the Eastern Building is due to space restrictions and is intended to accommodate back-of-house operations rather than pedestrian circulation throughout the site. Internal uncomplementary landscape buffers, including screening and landscaping, are not required because the Property is master planned and designed to accommodate commercial and industrial uses harmoniously. The perimeter landscaping abutting the existing commercial centers identified on the Site Plan with addresses 11211 and 11233 Beach Boulevard shall not require trees due to the overhead utilities.

C. Describe the intent for the continued operation and maintenance of those areas and functions described herein and facilities which are not to be provided, operated or maintained by the City.

Owner and/or a POA, or similar entity will be responsible for the operation and maintenance of the areas and functions described herein and any facilities that are not provided, operated or maintained by the City.

IV. USES AND RESTRICTIONS

A. Permitted Uses (all uses shall be permitted on the entirety of the Property unless otherwise stated):

1. Commercial Retail Sales and Service Establishments.
2. Retail sales of new or used automobiles, trucks and tractors, mobile homes, boats, pawnshops subject to Part 4, automotive vehicle parts (but not automobile wrecking yards, junkyards or scrap processing yards), heavy machinery and equipment, dairy supplies, feed, fertilizer, plant nurseries, lumber and building supplies and similar products.
3. Service stations, truck stops, automated car wash meeting the performance standards and development criteria set forth in Part 4, auto laundry, mobile car detailing services, major automotive repair, car or truck rental, restaurants,

laundromat or dry cleaners, veterinarians, animal boarding kennels meeting the performance standards and development criteria set forth in Part 4, pest control, carpenter or cabinet shops, home equipment rentals, job printing or newspapers, radio or television offices and studios, blood donor stations and similar uses.

4. Commercial, recreational and entertainment facilities such as carnivals or circuses, theaters (including open-air theaters), skating rinks, athletic complexes, arenas, auditoriums, convention centers, go-cart tracks, driving ranges, indoor and outdoor facilities operated by a licensed pari-mutuel permitholder, and other similar uses.
5. Fruit, vegetable, poultry or fish markets.
6. All types of professional and business offices.
7. Small scale operations including wholesaling, warehousing, storage, distributorship business, and butcher and live animal processing where the total operation for any individual use does not require more than 15,000 square feet of floor space and all merchandise and animals are stored and processed within an enclosed building. Live animal processing may only occur within the LI land use category on the Property and in conjunction with an approved commercial use. Animals that may be processed include poultry, lamb, goat, and cow. The maximum number of live animals stored on site shall not exceed a two (2) day supply for any commercial operation and shall not exceed fifty (50) poultry, ten (10) lamb, ten (10) goats, and two (2) cows at any given time. Any delivered animal shall be ready for same-day processing at the facility. Disposal of animal by-product shall be according to all applicable federal, state, and local safety guidelines and shall be taken offsite same day.
8. Hotels and motels.
9. Day care centers and care centers meeting the performance standards and development criteria set forth in Part 4.
10. Hospital, nursing homes, assisted living facilities, group care homes, housing for the elderly or orphans and similar uses.
11. Boatyards.
12. Light manufacturing, processing (including food processing but not slaughterhouse), packaging or fabricating.
13. Off-street commercial parking lots meeting the performance standards and development criteria set forth in Part 4.

14. Retail outlets for sale of used wearing apparel, toys, books, luggage, jewelry, cameras, sporting goods, home furnishing and appliances, furniture and similar uses.
15. Recycling collection points meeting the performance standards and development criteria set forth in Part 4.
16. Essential services, including water, sewer, gas, telephone, radio, television and electric, meeting the performance standards and development criteria set forth in Part 4. The use of stormwater dewatering pumps for the purpose of depressing the water table to facilitate and aid in the function of underground stormwater retention facilities are permitted.
17. Private clubs.
18. Churches, including a rectory or similar use.
19. Personal property storage establishments meeting the performance standards and development criteria set forth in Part 4.
20. Vocational, trade and business schools.
21. Banks, including drive-thru tellers.
22. A restaurant which includes the retail sale and service of all alcoholic beverages including liquor, beer or wine for on-premises consumption.
23. The sale of new or used tires, meeting the performance standards and development criteria set forth in Part 4.
24. Textile Recycling Collection Bins meeting the development criteria and performance standards set forth in Part 4, Section 656.421 (Textile Recycling Bins).

B. Permissible Uses by Exception:

1. Residential treatment facilities or emergency shelter.
2. Rescue missions.
3. Day labor pools.
4. Crematories.
5. An establishment or facility which includes the retail sale and service of all alcoholic beverages including liquor, beer or wine for on-premises consumption.

6. Building trades contractors with outside storage yards meeting the performance standards and development criteria set forth in Part 4.
7. Travel trailer parks meeting the performance standards and development criteria set forth in Part 4.
8. Automobile storage yards.
9. Bus, semi-tractor (but not trailer) or truck parking and/or storage.
10. Schools meeting the performance standards and development criteria set forth in Part 4.
11. An establishment or facility which includes the retail sale of all alcoholic beverages, not in conjunction with a restaurant, including liquor, beer or wine for on-premises consumption.
12. Manual car wash.
13. Indoor gun ranges meeting the performance standards and development criteria set forth in Part 4.

C. Permitted Accessory Uses and Structures:

1. As permitted in Section 656.403 of the Zoning Code.

V. DESIGN GUIDELINES

A. Lot requirements:

1. Minimum lot width and area: None.
2. Maximum coverage by all buildings: None. Maximum impervious surface ratio shall be eighty-five percent (85%) and shall be calculated on a Property-wide basis.
3. Minimum yard requirements:
 - a. Front (south boundary) – None.
 - b. Side (east and west boundaries) – None.
 - c. Rear (north boundary)– Ten (10) feet, based on the PUD boundaries. Individual parcels, structures, or uses internal to the PUD shall not require a yard.
4. Maximum height of structures: Sixty (60) feet.

B. Ingress, Egress and Circulation:

1. *Parking Requirements.* Parking for wholesaling, warehousing, storage, and distributorship businesses shall be required at a minimum ratio of one (1) space for every two thousand (2,000) square feet. Butcher and live animal processing uses shall require one (1) parking space. All commercial retail and service establishments shall provide parking at a minimum ratio of three (3) spaces per one thousand (1,000) square feet. All other uses shall provide parking pursuant to Part 6 of the Zoning Code. There shall be no maximum parking cap, parking spaces may be shared among uses with off-setting hours, and parking spaces may be located on a separate lot or parcel if the Property is subdivided in the future. All parking spaces may be impervious. Landscaped pedestrian connections contemplated in Section 656.607(b) for the parking lots shall not be required. There shall be a minimum of two (2) loading areas for the PUD, which shall be screened from Beach Boulevard but are not required to be screened from Cortez Road. Bicycle parking shall be provided at a rate of five (5) percent of the parking spaces onsite.
 2. *Vehicular Access.* Vehicular access to the Property shall be by way of Beach Boulevard and Cortez Road, as conceptually shown on the Site Plan.
 3. *Pedestrian Access.* As required by City regulations. The sidewalk to the rear of the Eastern Building shall have a minimum five (5) foot width.
- C. *Signs:* Signs for this development shall be consistent with the requirements for the CCG-2 zoning district as set forth in Part 13 of the Zoning Code. The PUD identity, multiple uses, owners, and/or tenants may be identified on signs within the PUD without regard to property ownership boundaries that may exist among the individual uses, owners, and/or tenants and without regard to lot location, property ownership or frontage.
- D. *Landscaping:* Landscaping shall be provided as required pursuant to Part 12 of the Zoning Code, as modified herein. The minimum uncomplementary landscape buffer shall be ten (10) feet but shall not be required (including no screening or trees) between different uses on the Property. Five (5) foot on-average perimeter landscaping for VUAs shall be provided along the boundaries abutting the existing commercial centers identified on the Site Plan with addresses 11211 and 11233 Beach Boulevard. Such landscaping shall not require trees but shall contain grass, mulch, or other natural landscaping.
- E. *Recreation and Open Space:* Recreation and open space shall be provided as required by the 2045 Comprehensive Plan.

- F. Utilities: Essential services, including water, sewer, and gas, as required to serve the project shall be permitted on the site. Water, sanitary sewer and electric will be provided by JEA.
- G. Wetlands: Development which would impact wetlands will be permitted in accordance with local, state and federal requirements.
- H. Modifications: The Site Plan is conceptual in nature and subject to change. Changes to square footage as set forth herein and changes to the location and configuration of stormwater facilities, swales, and other infrastructure, open space, and compensatory storage are allowed without a modification to the PUD and Site Plan. This PUD may be modified administratively, by minor modification, or by major modification (rezoning) subject to the procedures set forth in Section 656.341 of the Zoning Code or as set forth herein. In the event of a conflict between the PUD written description and the Site Plan, the PUD written description shall control.

VI. JUSTIFICATION FOR PLANNED UNIT DEVELOPMENT CLASSIFICATION FOR THIS PROJECT

In accordance with Section 656.341(d) of the Code the PUD meets the applicable Criteria for review as follows:

- A. **Consistency with the Comprehensive Plan.** The proposed PUD is consistent with the general purpose and intent of the City's 2045 Comprehensive Plan and Land Use Regulations, will promote the purposes of the City's 2045 Comprehensive Plan and specifically contributes to:

Future Land Use Element

- 1. Goal 1 - To ensure that the character and location of land uses optimize the combined potentials for economic benefit, enjoyment, wellness and protection of natural resources, while minimizing the threat to health, safety and welfare posed by hazards, nuisances, incompatible land uses and environmental degradation.
- 2. Objective 1.1 - Ensure that the type, rate, and distribution of growth in the City results in compact and compatible land use patterns, an increasingly efficient urban service delivery system and discourages proliferation of urban sprawl through implementation of regulatory programs, intergovernmental coordination mechanisms, and public/private coordination.
- 3. Policy 1.1.6 - Ensure that all future development and redevelopment meets or exceeds the requirements of all Land Development Regulations, including, but not limited to zoning, subdivision of land, landscape and tree protection regulations, and signage, as established and adopted by the City, State of Florida and the federal government, unless such requirements have been previously waived by those governmental bodies.

4. Policy 1.1.9 - Promote the use of Planned Unit Development (PUD) zoning districts, cluster developments, and other innovative site planning and smart growth techniques in order to allow for appropriate combinations of complementary land uses, densities and intensities consistent with the underlying land use category or site specific policy, and innovation in site planning and design, subject to the standards of this element and all applicable local, regional, State and federal regulations. These techniques should consider the following criteria in determining uses, densities, intensities, and site design:
 - a. Potential for the development of blighting or other negative influences on abutting properties
 - b. Traffic Impacts
 - c. Site Access
 - d. Transition of densities and comparison of percentage increase in density above average density of abutting developed properties
 - e. Configuration and orientation of the property
 - f. Natural or man-made buffers and boundaries
 - g. Height of development
 - h. Bulk and scale of development
 - i. Building orientation
 - j. Site layout
 - k. Parking layout
 - l. Opportunities for physical activity, active living, social connection, and access to healthy food
5. Policy 1.1.13 - Require mitigation of adverse land use impacts on adjacent uses during development and redevelopment through:
 - a. Creation of complementary uses;
 - b. Enhancement of transportation connections;
 - c. Use of noise, odor, vibration and visual/ aesthetic controls; and/or
 - d. Other appropriate mitigation measures such as requirements for buffer zones and landscaping between uses.
6. Policy 1.1.22 - Future development orders, development permits and plan amendments shall maintain compact and compatible land use patterns, maintain an increasingly efficient urban service delivery system and discourage urban sprawl as described in the Development Areas and the Plan Category Descriptions of the Operative Provisions.
7. Objective 1.2 - Manage the use of land in the City by approving new development and redevelopment only if necessary public facilities are provided concurrent with the impacts of development. Ensure the availability of adequate land suitable for utility facilities necessary to support proposed development. Verify prior to development order issuance that all new development and redevelopment will be

served with potable water, wastewater, solid waste disposal, stormwater management facilities, and parks that meet or exceed the adopted Levels of Service established in the Capital Improvements Element.

8. Policy 1.2.8 - Require new development and redevelopment in the Central Business District, Urban Priority Area, Urban Area, and Suburban Area to be served by centralized wastewater collection and potable water distribution systems when centralized service is available to the site.

Development on sites located within the UPA, UA and SA are permitted where connections to centralized potable water and/or wastewater are not available subject to compliance with the following provisions:

- a. Single family/non-residential (estimated flows of 600 gpd or less) where the collection system of a regional utility company is not available through gravity service via a facility within a right-of-way or easement which abuts the property.
 - b. Non-residential (above 600 gpd) where the collection system of a regional utility company is not within 50 feet of the property.
 - c. Subdivision (non-residential and residential) where:
 - i. The collection system of a regional utility company is greater than $\frac{1}{4}$ mile from the proposed subdivision.
 - ii. Each lot is a minimum of $\frac{1}{2}$ acre unsubmerged property.
 - iii. Installation of dryline sewer systems shall be installed when programmed improvements are identified in the Capital Improvements Element which will make connections to the JEA Collection Systems available within a five-year period.
9. Goal 3 - To achieve a well balanced and organized combination of residential, non-residential, recreational and public uses served by a convenient and efficient transportation network, while protecting and preserving the fabric and character of the City's neighborhoods and enhancing the viability of non-residential areas.
 10. Policy 4.1.2 - The City shall require that all development conform to the densities and intensities established in the Future Land Use Map series and Operative Provisions of this element and be consistent with the plan.

B. Consistency with the Concurrency Management System. All development will secure necessary approvals from the CMMSO and pay all required fees in accordance with Chapter 655 of the Code.

C. Allocation of residential land use. This PUD does not permit multi-family uses.

D. Internal compatibility. The Site Plan conceptually depicts access and circulation within the site. Access to the site is available from Beach Boulevard and Cortez Road.

Location of the access points shown on the Site Plan as well as final design of the access points are subject to the review and approval of the City Traffic Engineer and the Planning and Development Department.

- E. **External compatibility / Intensity of development.** The proposed development is consistent with and complimentary to existing uses in the area. The proposed commercial development is consistent with the existing commercial uses on the Property and along Beach Boulevard Warehousing and butcher and live animal processing will support the existing and emerging uses for the development and are limited with context-sensitive design requirements. Such uses shall not individually exceed fifteen thousand (15,000) square feet each and must operate within an enclosed building. Loading has been oriented to the rear of the thirty thousand (30,000) square foot expansion to screen operations from Beach Boulevard.
- F. **Usable open spaces, plazas, recreation areas.** Open space in compliance with the 2045 Comprehensive Plan will be substantially provided as shown on the Site Plan attached as Exhibit E.
- G. **Impact on wetlands.** Development which would impact wetlands will be permitted in accordance with local, state and federal requirements.
- H. **Listed species regulations.** The Property is less than fifty (50) acres and therefore a listed species survey is not required.
- I. **Off-Street parking including loading and unloading areas.** Parking for wholesaling, warehousing, storage, and distributorship businesses shall be required at a minimum ratio of one (1) space for every two thousand (2,000) square feet. Butcher and live animal processing uses shall require only one (1) parking space. All commercial retail and service establishments shall provide parking at a minimum ratio of three (3) spaces per one thousand (1,000) square feet. All other uses shall provide parking pursuant to Part 6 of the Zoning Code. There shall be no maximum parking cap, parking spaces may be shared among uses with off-setting hours, and parking spaces may be located on a separate lot or parcel if the Property is subdivided in the future. All parking spaces may be impervious. Landscaped pedestrian connections contemplated in Section 656.607(b) for the parking lots shall not be required. There shall be a minimum of two (2) loading areas for the PUD, which shall be screened from Beach Boulevard but are not required to be screened from Cortez Road. Bicycle parking shall be provided at a rate of five (5) percent of the parking spaces onsite.
- J. **Sidewalks, trails and bikeways.** Pedestrian circulation will be addressed consistent with the City regulations. The sidewalk to the rear of the Eastern Building shall have a minimum five (5) foot width.

EXHIBIT F

Land Use Table

Total gross acreage	<u>6.82</u> Acres	<u>100.00</u> %
Amount of each different land use by acreage		
Single family	<u>0</u> Acres	<u>0</u> %
Total number of dwelling units	<u> </u> D.U.	
Multiple family	<u>0</u> Acres	<u>0</u> %
Total number of dwelling units	<u> </u> D.U.	
Commercial	<u>5.12</u> Acres	<u>74.91</u> %
Industrial	<u>1.22</u> Acres	<u>17.99</u> %
Other land use (Hospital and related uses)	<u> </u> Acres	<u> </u> %
Active recreation and/or open space	<u> </u> Acres	<u> </u> %
Passive open space	<u>0.48</u> Acres	<u>7.10</u> %
Public and private right-of-way	<u> </u> Acres	<u> </u> %

The land use estimates in this table are subject to change within the allowable densities and intensities of use, as set forth in the PUD Written Description. The maximum coverage by buildings and structures is subject to the PUD Written Description.
