CRITERIA

Section 656.1310, Ordinance Code, sets forth procedures and criteria for evaluating waivers of the Part 13 sign regulations. Section 656.1302 of the Ordinance Code defines a sign as *“a painting, structure, projected image or device which is placed, erected, constructed or maintained on or in the ground or water, or on or outside of an enclosed building, boat, ship, vessel or other object or structure or affixed or painted on or inside an exterior window of a building for the purpose of display, information, advertisement or attraction of the attention of persons, including posters, pictures, pictorial or reading matter and a letter, word, model, device or representation used in the nature of an advertisement, announcement, attraction or direction.”*

Section 656.133(c)1 through 10, Ordinance Code, provides that, with respect to action upon Applications for Sign Waivers, the City Council shall grant a waiver only if substantial competent evidence exists to support a positive finding based on each of the following criteria as applicable:

1. *Will the effect of the sign waiver be compatible with the existing contiguous signage or zoning and consistent with the general character of the area considering population, density, scale, and orientation of the structures in the area?*
2. *Would the result detract from the specific intent of the zoning ordinance by promoting the continued existence of nonconforming signs that exist in the vicinity?*
3. *Could the effect of the proposed waiver diminish property values in, or negatively alter the aesthetic character of the area surrounding the site, and could such waiver substantially interfere with or injure the rights of others whose property would be affected by the same?*
4. *Would the waiver have a detrimental effect on vehicular traffic or parking conditions, or result in the creation of objectionable or excessive light, glare, shadows or other effects, taking into account existing uses and zoning in the vicinity?*
5. *Is the proposed waiver detrimental to the public health, safety or welfare, or could such waiver result in additional public expense, creation of nuisances, or cause conflict with any other applicable law?*
6. *Does the subject property exhibit specific physical limitations or characteristics, which would be unique to the site and which would make imposition of the strict letter of the regulation unduly burdensome?*
7. *Is the request based exclusively upon a desire to reduce the costs associated with compliance and is the request the minimum necessary to obtain a reasonable communication of one's message?*
8. *Is the request the result of a violation that has existed for a considerable length of time without receiving a citation and if so, is the violation that exists a result of construction that occurred prior to the applicant's acquiring the property, not being a direct result of the actions of the current owner?*
9. *Does the request accomplish a compelling public interest such as, for example, furthering the preservation of natural resources by saving a tree or trees?*
10. *Would strict compliance with the regulation create a substantial financial burden when considering the cost of compliance?*

18. Given the above definition of a "sign" and the aforementioned criteria by which the request will be reviewed against, please describe the reason that the waiver is being sought. Provide as much information as you can; you may attach a separate sheet if necessary. Please note that failure by the applicant to adequately substantiate the need for the request and to meet the criteria set forth may result in a denial.

See separate sheet.

**APPLICATION FOR SIGN WAIVER
STANDARDS AND CRITERIA**

Applicant seeks a sign waiver to increase the size of their sign by less than 10 square feet. The attached sign photo shows the existing site condition. The application packet also includes a depiction of the proposed sign after the logo has been updated and larger box signs have been created to list additional services. This depiction also provides measurements for the proposed sign. The total sign square footage after updating will be 70.75 square feet. The property sits on a flag lot with a total of 61 feet of frontage. Accordingly, the proposed sign is slightly larger than the maximum permitted pursuant to Section 656.1303 of the Zoning Code, so a sign waiver is required.

1. Will the effect of the sign waiver be compatible with the existing contiguous signage or zoning and consistent with the general character of the area considering population, density, scale, and orientation of the structures in the area?

Yes. The purpose of this sign waiver is to permit an updated sign that is less than 10 square feet larger than the maximum size currently permitted on the property. The additional square footage will allow the Applicant to list additional services on their sign and will not materially alter the character of the existing Pet Paradise signage. As such, the proposed sign will remain consistent with the existing character of the area.

2. Would the result detract from the specific intent of the zoning ordinance by promoting the continued existence of nonconforming signs that exist in the vicinity?

No. The proposed sign is very similar to the conforming pylon sign that is currently located on University Boulevard. The proposed features do not detract from the specific intent of the zoning ordinance and do not promote the existence of any possible nonconforming signs in the vicinity. The zoning ordinance allows businesses an on-site sign to identify the use of their property. The Applicant's business is accessible from University Boulevard via a right-of-way and thus, its only presence on University Boulevard is its sign. While the existing zoning ordinance allows for only one square foot of sign for each foot of street frontage, the Applicant's signage rights are constricted due to the fact that their lot is flag shaped with limited frontage along University Boulevard. Moreover, the Applicant's properties are surrounded by businesses with more street frontage on University Boulevard which allow for larger signs than that proposed by Applicant.

3. Could the effect of the proposed waiver diminish property values in, or negatively alter the aesthetic character of the area surrounding the site, and could such waiver substantially interfere with or injure the rights of others whose property would be affected by the same.

No. There already exists a pylon sign on the property that is materially similar to the proposed sign. Applicant only seeks to increase the maximum size of what already exists by less than 10 square feet to allow Applicant to list additional services on their sign. Additionally, Applicant proposes an updated sign that includes a faux stone façade and columns in addition to a recessed flower bed, which will be an aesthetic improvement from the current sign on a very busy commercial corridor.

4. Would the waiver have a detrimental effect on vehicular traffic or parking conditions, or result in the creation of objectionable or excessive light, glare, shadows or other effects, taking into account existing uses and zoning in the vicinity?

No. The current sign is an internally LED-illuminated pylon sign, and Applicant proposes a slightly larger internally LED-illuminated pylon sign that is generally of the same shape, color, and character as the current

sign. As no new illumination is being provided in connection with the proposed sign, there will be no objectionable or excessive light, glare or shadows created through the addition of box sign space to list additional services. The proposed sign is entirely consistent with the commercial signage typically found along University Boulevard.

5. Is the proposed waiver detrimental to the public health, safety or welfare, or could such waiver result in additional public expense, creation of nuisances, or cause conflict with any other applicable law?

No. The proposed waiver will not have any impact on public health, safety or welfare, nor result in public expense, nuisance or conflict with applicable law. As previously shown, the proposed sign is entirely consistent with the commercial signage typically found along University Boulevard.

6. Does the subject property exhibit specific physical limitations or characteristics, which would be unique to the site and which would make imposition of the strict letter of the regulation unduly burdensome?

Yes. Imposition of the strict letter of the sign ordinance is impractical and unduly burdensome in the context of Applicant's street frontage on University Boulevard. The existing code permits one street frontage sign per lot, not exceeding one square foot of signage for each linear foot of road frontage. Under the current zoning code, Applicant would be limited to a sign of no more than 61 square feet due to the fact that Applicant has a flag shaped lot with limited road frontage. The total square footage contemplated in the attached application is within 10 square feet of the allowable limit. The zoning code is not intended to limit a business owner's ability to have a reasonable sign on its site that identifies the use of the property. Applicant only seeks a sign waiver to minimally increase the maximum size to allow Applicant to list additional services on their sign. Application of the strict letter of the zoning code to Applicant's flag lot would limit Applicant's ability to clearly identify the uses associated with their business and property.

7. Is the request based exclusively upon a desire to reduce the costs associated with compliance and is the request the minimum necessary to obtain a reasonable communication of one's message?

The request is not based in any way upon a desire to reduce the costs associated with compliance. Applicant has limited its request only to what square footage is required to list additional services and to provide more aesthetic features on its new sign. No further concessions are requested in connection with this application.

8. Is the request the result of a violation that has existed for a considerable length of time without receiving a citation and if so, is the violation that exists a result of construction that occurred prior to the applicants acquiring the property, not being a direct result of the actions of the current owner?

No. The request is not the result of a violation.

9. Does the request accomplish a compelling public interest, such as, for example, furthering the preservation of natural resources by saving a tree or trees?

Yes. The request could be determined to be in the public interest by improving the appearance of signage along University Boulevard and providing for consistency and continuity for patron recognition, orientation and advertising from all nearby traffic and pedestrian routes.

10. Would strict compliance with the regulation create a substantial financial burden when considering the cost of compliance?

This request is not based upon cost of compliance or financial burden. Instead, the request is based on Applicants desire to more fully list its services on its University Boulevard sign.

ATTACHMENTS

The following attachments must accompany each copy of the application.

- Survey
- Site Plan – two (2) copies on 8 ½ x 11 and two (2) copies on 11 x 17 or larger
- Property Ownership Affidavit (Exhibit A)
- Agent Authorization if application is made by any person other than the property owner (Exhibit B)
- Legal Description – may be written as either lot and block, or metes and bounds (Exhibit 1)
- Proof of property ownership – may be print-out of property appraiser record card if individual owner, http://apps.coj.net/pao_propertySearch/Basic/Search.aspx, or print-out of entry from the Florida Department of State Division of Corporations if a corporate owner, <http://search.sunbiz.org/Inquiry/CorporationSearch/ByName>.
- Photographs of sign structure showing nonconforming nature and physical impediments to compliance.
- If waiver is based on economic hardship, applicant must submit the following:
 - Two (2) estimates from licensed contractors stating the cost of bringing the sign structure into compliance; and
 - Any other information the applicant wished to have considered in connection to the waiver request.

FILING FEES

*Applications filed to correct existing zoning violations are subject to a double fee.

<u>Base Fee</u>	<u>Public Notices</u>	<u>Advertisement</u>
Residential Districts: \$1,161.00	\$7.00 per Addressee	Billed directly to owner/agent
Non-residential Districts: \$1,173.00		

NOTE: City Council may, as a condition of the waiver, specify a time period within which the sign structure shall be required to conform to the requirements of the City’s sign regulations.

AUTHORIZATION	
<p>Please review your application. No application will be accepted until all of the requested information has been supplied and the required fee has been paid. The acceptance of an application as being complete does not guarantee its approval by the City Council. The owner and/or authorized agent must be present at the public hearing.</p> <p>The required public notice signs must be posted on the property within five (5) working days after the filing of this application. Sign(s) must remain posted and maintained until a final determination has been made on the application.</p> <p><u>I hereby certify that I have read and understand</u> the information contained in this application, that I am the owner or authorized agent for the owner with authority to make this application, and that all of the information contained in this application, including the attachments, is true and correct to the best of my knowledge.</p>	
<p>Owner(s) Print name: _____ Signature: _____</p>	<p>Applicant or Agent (if different than owner) Print name: <u>Cyndy Trimmer</u> Signature: </p>
<p>Owner(s) Print name: _____ Signature: _____</p>	<p><i>*An agent authorization letter is required if the application is made by any person other than the property owner.</i></p>

SUBMITTAL
<p>This application must be typed or printed in ink and submitted along with three (3) copies for a total of four (4) applications. Each application must include all required attachments.</p> <p><u>Submit applications to:</u> Planning and Development Department, Zoning Section 214 North Hogan Street, 2nd Floor Jacksonville, Florida 32202 (904) 255-8300</p>
