GENERAL INFORMATION

Application for Waiver of Minimum Required Road Frontage **Ordinance 2022-255** (WRF 22-09) seeks to reduce the required minimum road frontage from 96 feet to 0 feet for two lots. A house has already been constructed on one lot, the other lot was created in June 2020. The subject property is the northern portion of Lot 8 in the Southside Estates Unit 1 Plat from 1945.

DEFINITION

According to Section 656.1601 of the Zoning Code, the term *waiver* means a relaxation of the Zoning Code minimum distance requirements for liquor license locations, pursuant to Section 656.805 of the Zoning Code, and for minimum street frontage, pursuant to Section 656.407 of the Zoning Code. Waivers of Road Frontage are granted by the City Council pursuant to the criteria set forth in Section 656.133 of the Zoning Code.

STANDARDS, CRITERIA AND FINDINGS

Pursuant to the provisions of Section 656.133 of the Zoning Code, a waiver for minimum required street frontage may be granted if the City Council makes a positive finding based on substantial, competent evidence that the application meets all of the following criteria:

- (i) *Are there practical or economic difficulties in carrying out the strict letter of the regulation?*

No. The subject parcel meets the minimum lot area of the zoning district, it fronts on Hilltop Boulevard, which is a public unmaintained right of way. The owner would need to construct a road to City standards to meet the road frontage requirement.

- (ii) *Is the request based exclusively upon the desire to reduce the cost of developing the site or to circumvent the requirements of Chapter 654 (Code of Subdivision Regulations)?*

Yes. The waiver of road frontage, if granted, will reduce the cost of constructing a City approved road. As shown by the photos in this report, the applicant does not intend to clear the remaining right of way of trees or brush, but use an easement over one lot to access the other lot. This will create a de facto subdivision without adequate provision for access via an approved public or private road, effectively circumventing Chapter 654 (*Code of Subdivision Regulations*) as well as Section 656.407 (*Lot to have access*) of the Zoning Code.

- (iii) *Will the proposed waiver substantially diminish property values in, or alter the essential character of, the area surrounding the site and will the waiver substantially interfere with or injure the rights of others?*

Yes. The proposed waiver will allow the property owner to construct a single family home on a lot that does not meet the minimum lot width of the RLD-60 Zoning District and are substantially smaller than the other lots on Hilltop Blvd. The lack of development standards required by the Code of Subdivision Regulations, such as approved roads, and storm water retention will likely diminish property values or alter the character of the area surrounding the subject parcel.

- (iv) *Is there a valid and effective easement for adequate vehicular access connected to a public street maintained by the City or an approved private street?*

No. The application will use a 25 foot wide easement over 1680 Hilltop Blvd to access the lot created in 2020. The easement will connect to Hilltop Boulevard which is unmaintained public right of way.

- (v) *Will the proposed waiver be detrimental to the public health, safety or welfare, result in additional expense, the creation of nuisances or conflict with any other applicable law?*

Yes. The Planning and Development Department has concerns that the waiver will create a public health, safety, and welfare concern in that the complete lack of an approved road frontage may make finding the lot difficult for fire, rescue, and public services. The lot is approximately 337 feet from Arnold Road, which is a public maintained road. Access may be very difficult for larger vehicles such as fire trucks and solid waste trucks. The photo in this staff report shows the intersection of Arnold Road and Hilltop Boulevard.

SUPPLEMENTARY INFORMATION

Upon visual inspection of the subject property on April 22, 2022, the required Notice of Public Hearing sign was posted.

RECOMMENDATION

Based on the foregoing, it is the recommendation of the Planning and Development Department that Application for Waiver of Minimum Required Road Frontage **Ordinance 2022-255 (WRF 22-09)** be **APPROVED** with the following condition.

1. The waiver of road frontage for 1680 Hilltop Boulevard (RE 123072-0930) is approved, the waiver for RE 123072-0900) is denied.

Intersection of Arnold Road and Hilltop Boulevard. Hilltop Blvd is an unmaintained public right of way. The proposed lots are 337 feet from this intersection.

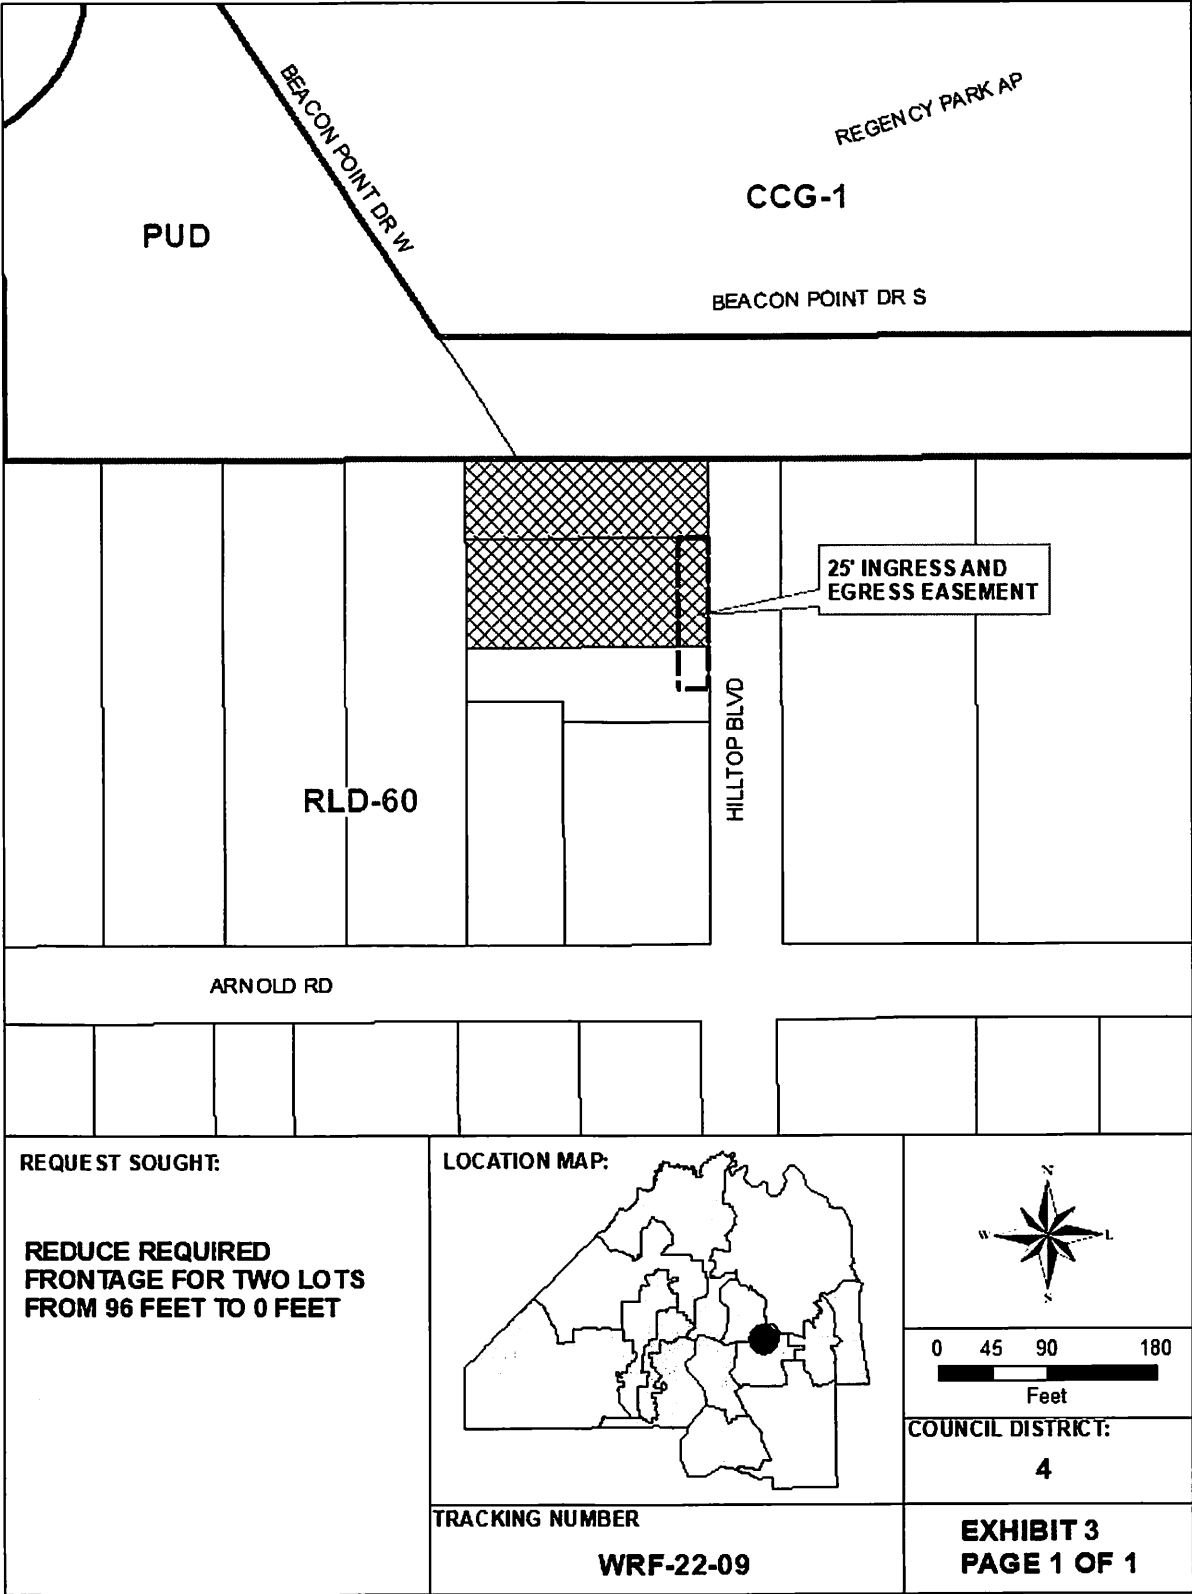

An existing house is built on one of the two lots.

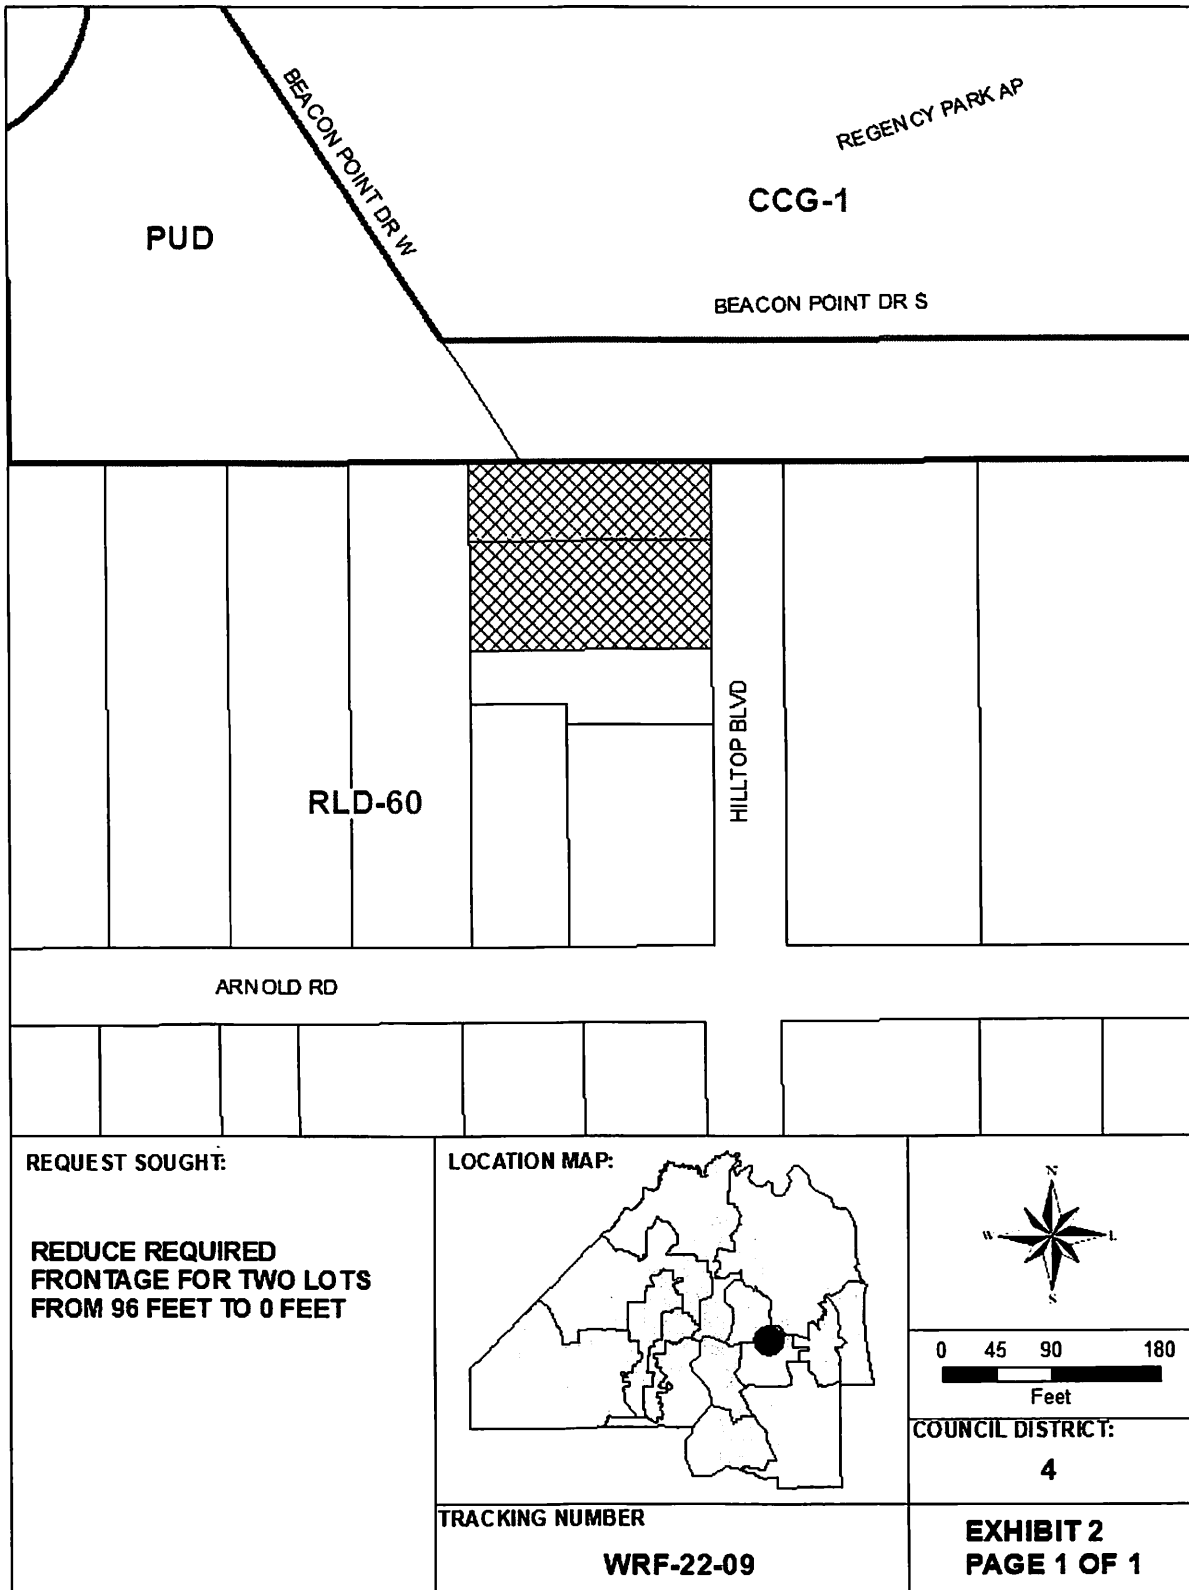

The right of way is not cleared to allow emergency vehicles access to the proposed lots.

Aerial view of subject properties.
