

Project Title	Resiliency Infrastructure Improvements	Council District(s)	Countywide	Est. Completion Date
Project Location	Countywide	Project Number	010384	Capital Maint. Category
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction
Program Area	Roads / Infrastructure / Transportation	Urban Core		No
				50 years

Description or Scope

It is important for public infrastructure to be adaptive to changing environmental conditions, it will be important to assess the ability of existing infrastructure to withstand current and future stresses, and to plan for the infrastructure's rehabilitation, relocation and/or replacement. In addition, public access to resilient related information and data assist with community engagement.

Justification

It will be critical that new capital infrastructure to be made so that the infrastructure is located and engineered/ designed to withstand climate risks expected over the lifetime of the asset.

Project Title	NFWF Green Infrastructure	Council District(s)		Countywide	Est. Completion Date	
Project Location	Countywide	Project Number	011099		Capital Maint. Category	None
Department	Public Works	Mayor's Priority	Infrastructure		APP/Vertical Construction	
Program Area	Environmental / Quality of Life	Urban Core			Est. Useful Life	

Description or Scope

Building Capacity for Green Infrastructure to Improve Resilience in Jacksonville. The grant-funded project will develop a framework for prioritizing green infrastructure projects city-wide. In this manner, the City will be able to fund the most beneficial green infrastructure projects that best protect city assets and services. Once the projects have been prioritized, the next phase of the project will include design and permitting, and the following phase of the project will include construction of the green infrastructure projects.

Justification

Green infrastructure projects can help address heat and flooding. There are a huge number of potential green infrastructure projects that could be deployed across Jacksonville. It is necessary to prioritize potential project types and project locations to ensure that the City is funding the most beneficial projects. The proposed project would develop a robust framework for prioritizing green infrastructure projects to help reduce flooding and extreme heat in Jacksonville.
