PURPOSE: White Paper (Explain Why this legislation is necessary? Provide; Who, What, When, Where, How and the Impact.) Council Research will complete this form for Council introduced legislation and the Administration is responsible for all other legislation. (Minimum of 350 words - Maximum of 1 page.)

The Parks, Recreation and Community Services Department (PRCS) respectfully request Legislation to apply for six (6) 2022 Florida Inland Navigational (FIND) grant projects. On an annual basis, the City of Jacksonville applies to the Florida Inland Navigation District for grant funding for specific waterways-related projects through their Waterways Assistance Program. FIND grants fund both the design and construction phase of projects as well as acquisition projects. The project development costs are shared 50% by FIND and 50% by the City, while FIND contributes 25% for acquisition projects which is matched by 75% from the applicant. Internal project management fees charged by Public Works are ineligible expenses for reimbursement through FIND.

PRCS has developed a list of recommended 2022 FIND grant projects that was presented to the Jacksonville Waterways Commission on November 10, 2021 which voted in support of the staff recommendations. Authorization from City Council is now needed to submit grant applications for these projects. The recommended 2022 FIND projects are Riverview Park Boat Ramp - Construction (CD 8), Liberty Street Marina - Design (CD 7), Pottsborg Creek/Beach Blvd Boat Ramp - Design (CD 4), Mike McCue Boat Ramp Bulkhead - Design (CD 13), Oak Harbor Boat Ramp Bulkhead - Design (CD 13) and Thomas Creek Fish Camp Kayak Launch - Design (CD 7). An alternative project was also identified as a back-up recommendation in case one of the other projects is removed from the list: Sisters Creek Floating Dock Extension - Design (CD 2).

The six (6) recommended grant applications total \$3,795,000.00 (\$1,725,000.00 reimbursable from FIND and \$2,070,000.00 from City's match including internal engineering fees). If these applications are awarded by FIND, the grant agreements will require legislation to amend the CIP and MBRC authorization to execute the grant agreements.

(Minimum of 350 words - Maximum of 1 page.)

The six (6) recommended grant applications total \$3,795,000.00 (\$1,725,000.00 reimbursable from FIND and \$2,070,000.00 from City's match including internal engineering fees). If these applications are awarded by FIND, the grant agreements will require legislation to amend the CIP and MBRC authorization to execute the grant agreements.

FIND grants fund both the design and construction phase of projects as well as acquisition projects. The project development costs are shared 50% by FIND and the 50% by the City, with exception of acquisition projects which are 25% from FIND and matched by 75% from the applicant. Internal Public Works fees for these projects are an ineligible expense for reimbursement through FIND. Grant agreements allow two years to complete the project and the City can request one additional year, if needed. Upon completion of the construction projects, City staff will take over maintenance responsibilities of the new facilities.
