CRITERIA

Section 656.101(l), Ordinance Code, defines a waiver as “a relaxation of the Zoning Code minimum street frontage, pursuant to Section 656.407, Ordinance Code.”

Section 656.133(d)1 through 5, Ordinance Code, provides that, with respect to action upon Applications for Waivers, the City Council shall grant a waiver for reduction of the minimum requirements for road frontage, if the Council makes a positive finding based upon substantial, competent evidence that the application meets all of the following five (5) criteria:

- i. *There are practical or economic difficulties in carrying out the strict letter of the regulation;*
- ii. *The request is not based exclusively upon the desire to reduce the cost of developing the site or to circumvent the requirements of Chapter 654 (Code of Subdivision Regulations);*
- iii. *The proposed waiver will not substantially diminish property values in, nor alter the essential character of the area surrounding the site and will not substantially interfere with or injure the rights of others whose property would be affected by the waiver;*
- iv. *There is a valid and effective easement for adequate vehicular access connected to a public street which is maintained by the City or approved private street;*
- v. *The proposed waiver will not be detrimental to the public health, safety or welfare, result in additional expense, the creation of nuisances or conflict with any other applicable law.*

17. Given the above definition of a "waiver" and the aforementioned criteria by which the request will be reviewed against, please describe the reason that the waiver is being sought. Provide as much information as you can; you may attach a separate sheet if necessary. Please note that failure by the applicant to adequately substantiate the need for the request and to meet the criteria set forth may result in a denial.

We please seek this waiver because we would like to build (2) beautiful homes (5017 conditioned sqft., 6866 covered sqft.), on this parcel (123493 0045, Mr. Fredy Guifarro, Applicant/Owner), and the adjacent parcel (123493 0035 Mr. Pablo Antezana, Owner/Purchaser of original 2.9 acre tract). These properties were originally (1) 2.9 acre tract that we have split into (2) lots (Mr. Antezana deeded over 1/2 of the property to his friend and colleague Mr. Fredy Guifarro), that have a couple of factors affecting the placement of the (2) homes. The factors affecting the placement are the original shape of the 3 acre parcel, the pond between the (2) homes, the drainfield areas needed, and the Flood Zone Line ("x"/"AD") that runs across the property. While the home on the left ((Parcel 123493 0045) North side) will straddle the flood zone line (X/AD), and will require flood insurance, we would like to keep the home on the right parcel ((123493 0035) South side) as currently designed on the attached site plans, in front of the flood zone line, to be solely in flood zone "X". In order to fit this as such will require the parcel 123493 0045 to have the minimum road frontage at 48' on Lake Dr., but then reduce to 27' wide until the driveway gets past the home on the right (123493 0035), until it then opens up again to a very wide property.

I believe we meet the (5) criteria required for this waiver required by the Ordinance Code for the following reasons...

I. The practical and economic difficulties would be that Mr. Antezana (123493 0035) would have to move his home back into the flood zone if waiver is not approved. This would cost him substantially more for flood insurance. We also already have over \$10,000 invested in drafting fees for the homes, engineering, surveying, and closing costs, to divide and comfortably place the homes on the (2) lots to maximize the value of the improvements.

II. The request is not based exclusively to reduce the cost of developing the site, the development costs would be the same.

III. The proposed waiver will not diminish the property values, nor alter the essential character of the area surrounding the site, nor interfere with, or injure the rights of others whose property would be affected by the waiver. Our proposed improvements would definitely increase the property values of the area.

IV. There will still be an effective easement for adequate vehicular access connected to the public street which is maintained by the City.

V. The proposed waiver will not be detrimental to the public health, safety or welfare, result in additional expense, or create a nuisance or conflict with any other applicable law.

Thank you very much for considering our application for the relaxation of the zoning code minimum street frontage in this matter, pursuant to Section 656.407, Ordinance Code.
