

Exhibit 2

Department of Health Scope of Services

The State of Florida Department of Health, Duval County Health Department (the “DOH”), will provide the following services during the term of the agreement between the City and DOH:

1. Interviewing, evaluating and monitoring clients on various health matters related to COVID-19 and other health-related issues.
2. Providing education and guidance to clients on COVID-19 and other health-related issues.
3. Counseling clients on isolation/quarantine parameters.
4. Support ongoing vaccination planning and distribution efforts and various other health-related needs.
5. Provide such other implied services as necessary to effectuate the scope of services described herein.
6. Submit all reports required pursuant to the legislation authorizing DOH’s receipt of CARES Act funds and any agreement between the City and DOH, including but not limited to, a detailed summary of expenditures of CARES Act funds, to include invoices, to the Director of the City’s Finance and Administration Department.
7. Submit a final detailed report of all services rendered and expenditures of CARES Act funds to the Director of the City’s Finance and Administration Department on or before December 15, 2021.
