## **Project Description:**

This project focuses on the cleanup of various contaminated sites throughout the city. These dump sites are subject to a Memorandum of Understanding between the City of Jacksonville and the Florida Department of Environmental Protection to assess and remediate unlined dumps and any other contaminated sites the City owns or is designated as the Principal Responsible Party of cleanup. Examples of locations include the Imeson Landfill, Hema Road, Linden Avenue, Burke Street Pond and Confederate Park.

## Justification:

Sites are being remediated pursuant to MOU with COJ and FDEP. The lawsuit for the Confederate Park Site was settled and we must have funding for remediation construction pursuant to the FDEP Consent Decree. Additionally, the assessments for Imeson Landfill, Crystal Springs, Linden Avenue, Nevada-Greeland and Owens Avenue Landfills will be completed in the near future and remediation will be required to commence due to FDEP consent orders. Imeson LF - \$1,750,000, Crystal Springs \$1,000,000, Linden Avenue \$1,000,000, Nevada-Greeland \$2,500,000 and Owens Avenue \$1,000,000 leaves appx. \$4,500,000 for Confederate Park. Hema Road which was discovered during the assessment of Gold Merit/Pope Place site will require additional funding.
