Department of Gynecology and Obstetrics

Preceptor: George R. Huggins, M.D.
Chairman, Department of OB/GYN (1987-2001)
Johns Hopkins Bayview Medical Center
Baltimore, MD

ACADEMIC APPOINTMENTS

Assistant Professor of Gynecology and Obstetrics **1990-1998**
Johns Hopkins University School of Medicine
Baltimore, MD

WORK EXPERIENCES

Vice President and Operations Manager **2016-Present**
For Pebo Enterprises Corporation, Pebo Enterprises Georgia LLC,
PeboVan Tax Liens and Deeds, and VanPebo Florida LLC
3283 Edgewood Avenue West
Jacksonville, Florida 32209
(904) 859-4959

As Vice President and Operations Manager of the S Corporations and LLC's listed above, I researched and implemented an organizational Structure that will allow my husband (President of all listed entities) and myself to become real estate entrepreneurs who invest in single and multi-family, high quality, and aesthetically pleasing, low income housing. Through these business entities we raise capital for acquisition and renovation of real estate. The companies buy distressed assets and with other people's money secured as a mortgage. The entities above work with a power team consisting of a realtor, lenders, general contractor, title companies, insurance companies and CPA.

Vice President – External Medical Affairs **2011-2016**
Planned Parenthood Federation of America (PPFA)
434 West 33rd Street
New York, NY 10001
(212)261-4701

As Vice President of External Medical Affairs, I operate at the intersections of Public Policy, Communications, and Medical Services to provide leadership, voice, and assistance to junior and senior staff as they develop and execute strategies to: increase access to health care services, especially in areas of the country with highest unmet need; develop, maintain, and strengthen national and local partnerships with organizations and individuals with missions and goals that complement PPFA's missions, goals, and health services work; communicate truths and correct misperceptions about Planned Parenthood and reproductive health, especially preventive reproductive health; assist in execution of strategies that demonstrate the competitive high quality medical

services provided by Planned Parenthood affiliates; assist in developing research strategy along with communication of the impact of research conducted by Planned Parenthood affiliates. Day to day tasks include: media interviews focused on health care access, health disparities, reproductive health and well being, and medical services; panel presentations; facilitation of inter-divisional and inter-organizational work; providing support and assistance in tailoring and conveying preventive reproductive health messages to diverse audiences and stakeholders; and assisting in determining specific concrete, guidance about how to improve access to medical services.

Vice President – Medical Affairs

Planned Parenthood Federation of America (PPFA)
434 West 33rd Street
New York, NY 10001
(212)261-4701

2001-2011

Responsibilities included leadership and administrative management of the Medical Affairs Group of PPFA. This leadership involved complex coordination of multi-disciplinary teams across the nation, including non-PPFA entities. When I served as VP of Medical Affairs, Planned Parenthood consisted of the national offices and 99 affiliates that operated over 880 reproductive health centers in the United States. Then and now Planned Parenthood affiliate health centers provide family planning; primary care, including HIV immunizations; STI screening, diagnosis, treatment, and management; pre-natal care; abortion services; cervical cancer screenings with dysplasia diagnosis and management; breast cancer screening and care; peri-menopausal services; and select services for men. The Clinical Services Department of Medical Affairs was responsible for development of the Medical Standards and Guidelines for these services. Separately and in partnership with others across the Federation, Clinical Services used joint problem solving to develop projects and products that improved, enhanced and supported quality, standardization, and optimization of affiliate health care delivery. The Medical Affairs Division also consists of a Department of Research and a Department of Continuing Education and Special Projects. The Research Department served as a resource and provided opportunities for affiliates to partner with the national office to conduct research. Within this capacity, the Department of Research effectively served as a site management organization that worked with contract research organizations to assure protocol and regulatory compliance in addition to proper fiscal management. This department also assisted with writing and review of abstracts, presentations, and articles that emerged from research done in the federation. The Continuing Education and Special Projects Department designed, executed, and evaluated educational programs and materials that enhanced the performance of staff and enhance the quality of clinical services received by Planned Parenthood clients. To develop these evidence based programs, Continuing Education staff work collaboratively with external experts and cross-functional, multidisciplinary teams, whose members are representative of national office and affiliates' staff. Additionally, Medical Affairs provided technical assistance and support to other divisions of PPFA and affiliates. This technical assistance included consultation, reviews for medical accuracy, public relations and advocacy.
Budget: Approximately \$3 million/year.

- Member of Senior Management Team that is responsible for strategic direction and management of the national offices (\$70 million/year). The Senior Management Team also works closely with affiliate members of the Federation on Federation-wide issues and initiatives. (Budget of entire Federation is approximately \$500 million/year)
- Media work (print, television, radio) and external speaking engagements for affiliates and for the national office

In 2011, the Medical Affairs Division was consolidated into a new division, Health Services Support (HSS), which is charged with developing new business models for affiliates, optimizing existing business models, and facilitating affordable care act implementation. Departments formerly names clinical services, research, and medical continuing education continue to operate with expanded staff and responsibilities, in addition to responsibilities conveyed above.

Vice President/Medical Director – Technical Services **1998-2001**
 EngenderHealth (Formerly AVSC International)
 440 Ninth Avenue
 New York, NY 10001
 (212)561-8383

Responsibilities included:

- Member of the Executive Team which was responsible for strategic direction and management of this \$30-34 million agency
- Oversight and direction of Technical Teams responsible for providing technical support for reproductive health service delivery in over 40 countries worldwide
 - Teams managed included Clinical Services Support, Technical Resources Support, and Training teams.

Attending Physician, Staff – Department of Gynecology & Obstetrics **1988-1998**
 Johns Hopkins Bayview Medical Center
 4940 Eastern Avenue
 Baltimore, MD 21224
 (410)550-0335

Assistant Professor – Department of Gynecology & Obstetrics **1990-1998**
 The Johns Hopkins University, School of Medicine
 Baltimore, MD 21224

Acting Director **1990-1998**
 Bureau of Primary Care and Reproductive Health
 (Re-named Bureau of Adolescent Reproductive and Women’s Health)
 Baltimore City Health Department
 Baltimore, MD

- Organized and directed a management team that assessed, revised, and implemented several clinical processes and procedures, including patient flow, billing, follow-up, laboratory and screening tests, and medication inventory control.

- Oversight and allocation of resources based on bureau goals and a 2.1 million dollar budget
- Acquired additional funding (\$300,000) to enhance operation of the Healthy Teens and Young Adults program
- With the management team, actively restructured Bureau organizational structure to potentiate problem solving through cross functional teams
- Developed clinical protocols for reproductive health care
- Supervised staff of more than forty

Director Reproductive Health Policy
 Bureau of Primary Care and Reproductive Health
 Baltimore City Health Department

1994-1997

Responsibilities included development and oversight of Clinic Operations, Quality Assurance, Billing, Medical Records, Clinical Protocol Development and Medical Staff Supervision

2006-2007 Merck HPV OB/GYN Advisory Board

COMPLETED RESEARCH FUNDING (Research list only includes projects up and until Dr. Ashlesha Patel was hired as Senior Medical Director for Research in 2009. Upon hiring Dr. Patel, I began providing gross oversight of the department of research and, therefore, I do not list the research completed or in progress since 2009.)

2006-2008 \$2 million – HRA Pharma: Protocol 2914-005, A Prospective, Open-Label, Single Arm, Multicenter Study to Evaluate the Efficacy, Safety and Tolerability of CDB-2914 as Emergency Contraception When Taken Between 48 Hours and 120 Hours of Unprotected Intercourse – FDA Pivotal Trial involving 17 Planned Parenthood affiliates and 41 affiliate sites.

2005-2007 \$500,000 – Gynuity Health Projects – Packard Foundation – De-medicalization of Mifepristone Medical Abortion in the U.S.

2003-2004 \$590,000 – Watson Pharmaceuticals – The Use of Spirabrush Brush Biopsy Instrument in the Triage of Women Screened with Papsure for Cervical Dysplasia, PS-SB 175.03

2003-2004 \$18,000 – Partnership with Johns Hopkins Bloomberg School of Public Health, Pilot Study of Partner Involvement in Contraceptive Counseling at Abortion Clinics

1997-1998 Co-Investigator – Multicenter National Trial Assessing Safety and Acceptability of Cyclo-Provera in U.S. Women

1993 \$70,000 – Wyeth-Ayerst Pharmaceuticals – “The Effect of Ethinyl Estradiol vs. Ibuprofen vs. Placebo to Reduce Bleeding and Spotting in Norplant Users”

1993 \$5,000 – Chesapeake Physicians Research and Education Contraceptive and Lifestyle Follow-up of Adolescent Obstetrical Patients

1992 \$4,730 – Chesapeake Physicians Research Grant – “Survey to Explore the Interrelationships between Family Structure, Social Network, Sexual Behavior, Substance Abuse and Sexually Transmitted Diseases”

1992 \$5,000 – Johns Hopkins University, Department of Gynecology/Obstetrics Departmental Grant – “Survey to Explore the Interrelationships Between Family Structure, Social Network, Sexual Behavior, Substance Abuse and Sexually Transmitted Diseases”

MEDICAL CONTINUING EDUCATION (Only includes grants obtained directly by Vanessa Cullins or PPFA Medical Affairs. Does not include grants obtained by PPFA's Development Division)

2008-Ongoing **Minding the Contraceptive Gap**
The National Campaign to Prevent Teen and Unwanted Pregnancy - \$80,000
Watson - \$50,000

- 2007-2008 **HPV Tool Kit:**
Merck - \$250,000
Glaxo Smith Kline - \$17,000
Hologic - \$30,000
- 2007-2008 **Contraceptive Continuation:**
Wyeth - \$100,000
- 2007-2008 **Contraception – Case Based Approach**
Ortho - \$100,000
- 2006 **You Decide – Putting Contraceptive Risks into Perspective Tool Kit**
Ortho - \$261,500
- 2005 **You Decide – Putting Contraceptive Risks into Perspective – Collaboration with Association of Reproductive Health Professionals to Develop CME Content**
Ortho - \$60,483

MEDICAL CONTINUING EDUCATION (Grants obtained by PPFA's Development Division)

- 2007-2008 **Contraceptive Continuation:**
Bixby Foundation - \$200,000
- 2007-2008 **Intersections Between Environmental and Reproductive Health**
Cedar Tree Foundation - \$150,000

SERVICE DELIVERY PROGRAMS

- 1997 \$200,000 – Abell Foundation – Funding to provide an Intensive Case Management Program to Prevent Adolescent Pregnancy at Baltimore City Health Department
- 1997 \$100,000 – Strauss Foundation – Funding to Replicate the Michael Carrera Adolescent Pregnancy Prevention Program at Baltimore City Health Department
- 1994-1995 \$119,000 – Abell Foundation – Family Planning Outreach and Family Planning Clinic Services
- 1993-1994 \$195,190 – Abell Foundation – Family Planning Outreach and Family Planning Clinic Services
- The Family Planning Outreach Service Group delivered presentations to high risk populations located on the Bayview Research Campus and in the Baltimore Metropolitan Area, and provided individual, in home, family planning to high risk clients referred from Baltimore City Department of Social Services, Child Protective Services.
- 1992 \$24,475.50 – Abell Foundation – Production of a Norplant Video for adolescents and other high-risk populations

1992 \$100,000 – Abell Foundation – Contraceptive Outreach, Family Planning Clinic
