Bill Type and Number: Ordinance 2020-0056

Introducer/Sponsor(s): Council President at the request of the Mayor

Date of Introduction: January 28, 2020

Committee(s) of Reference: NCSPHS, F

Date of Analysis: January 29, 2020

Type of Action: Appropriation

Bill Summary: This bill appropriates a \$7,656.00 Project Award through the Northeast Florida Healthcare Coalition (NEFLHCC), with no local match, to provide funding for the initial purchase of Stop the Bleed Kits, as initiated by B.T. 20-036; approves and authorizes the Mayor, or his designee, and the Corporation Secretary to execute and deliver, for and on behalf of the City, the Memorandum of Agreement between The Northeast Florida Regional Council and City of Jacksonville; and provides for oversight by the Jacksonville Fire and Rescue Department.

Background Information:

The Bleeding Control Kit was developed in collaboration with leading manufacturers in the hemorrhage control industry and military. The tourniquet and hemostatic dressing in the kits are from the same technology recommended by the U.S. military to control bleeding. The kits are essential to saving lives in the event of a significant traumatic event in our community. With uncontrolled bleeding being the number one cause of preventable traumatic death, it is critically important that as many people as possible are trained and equipped to respond to such an incident. JFRD will purchase 200 bleeding control kits and assemble eight (8) deployable equipment bags for use at large special events by JFRD, JSO, and other various partner agencies. The project award reimburses the cost of the actual purchase. The kits must be purchased and received no later than May 1, 2020.

Policy Impact Area: Bleeding control kits

Fiscal Impact: The appropriation of \$7,656.00, as initiated by B.T. 20-036.
