

Riverview Collective Community Organization, Inc. - OysterFest

FY 2025-2026 City Grant Proposal Term Sheet

Grant Recipient: Riverview Collective Community Organization, Inc. (“Recipient” or “RCCO”)

Program Name: OysterFest (the “Program”)

City Funding Request: \$25,000

Contract/Grant Term: April 1, 2026 – March 30, 2027

Any substantial change to this FY 2025-2026 City Grant Proposal Term Sheet (the “Term Sheet”) or a budget change not within 10% of the attached Program budget line-items will require City Council approval.

PROGRAM OVERVIEW:

OysterFest will take place at Riverview Park along the Trout River and will highlight the role that oyster reef restoration plays in improving water quality, restoring marine habitat, and strengthening natural shoreline protection. Oyster reefs act as living infrastructure that can reduce wave energy and help mitigate localized flooding that regularly impacts Riverview during high tides and storm events. The Program will engage more than 300 residents, youth, and volunteers in environmental stewardship while also providing critical education on heirs’ property to help families protect generational land and build long-term community wealth. By combining environmental restoration with community education, OysterFest positions Riverview as a neighborhood leader in climate resilience, cultural heritage preservation, and community-driven conservation.

PROGRAM SCOPE OF WORK AND DELIVERABLES:

- Interactive marine science stations, youth environmental activities, and educational materials explaining oyster reefs, water quality, and flood resiliency along the Trout River at Riverview Park. One demonstration will occur during OysterFest and an additional lesson will take place during the summer on Oyster Day.
- Community outreach will occur 2 weeks prior to the event. Volunteers will canvass Riverview, a Council District 8 neighborhood with flyers, signage, and printed educational displays highlighting oyster reef restoration and flood resiliency efforts in Riverview.
- 2 Community cleanups, 4 oyster posh module build days and an oyster reef installation demonstration designed to strengthen shoreline protection and natural flood mitigation
- Workshops and informational resources to help Riverview residents understand heirs’ property, protect generational land ownership, and prevent displacement will occur during OysterFest.

PROGRAM COSTS/PAYMENT TERMS:

See attached Program Budget spreadsheet

City funds will be expensed in accordance with the approved budget and will be paid on a reimbursement basis upon the City’s receipt and approval of required documentation including but not limited to paid invoices, 3rd party payroll ledgers, cleared checks and/or bank statements.

City funds will only be used for environmental education, oyster reef stewardship activities, and heirs' property awareness programming. In accordance with Section 118.301, *Ordinance Code*, City funds will not be used for "costs of amusements, social activities and incidental costs relating thereto, such as meals, beverages, lodgings, rentals, transportation and gratuities".

PROGRAM IMPACT & REPORTING:

Program success will be measured through:

- Attendance and participation counts at OysterFest and educational sessions
- Number of youth and students participating in environmental learning activities
- Number of volunteers engaged in stewardship activities
- Distribution of heirs' property educational materials and participation in discussions
- Post-event interview and survey from residents, partners, and educators

RCCO will track participation and engagement data to evaluate community reach and inform future programming.

ADDITIONAL GRANT REQUIREMENTS AND CONDITIONS:

Recipient's expenditure of City funds for the Program and the provision of services shall be subject to Chapter 118, Parts 1 – 5 of the *Jacksonville Ordinance Code*, and the terms and conditions of any contract entered into between the City and Recipient. Recipient shall use the City funds for the Program in accordance with the City Council approved Term Sheet and Program budget. The City's Grant Administrator may amend this Term Sheet or the approved Program budget consistent with the Program's needs, provided that any substantial change to this Term Sheet or a budget change not within 10% of the attached Program budget line-items will require City Council approval.

**Budget Narrative for Selected Items of Cost
 FY 2026 City Grant Application
 Program Budget Narrative (Max. 2 Pages)
 Proposed Funding Period: FY 2025-2026
 COJ Funding Only**

Agency: Riverview Collective Community Organization

Program Name: OysterFest

EXPENSES: Please provide narrative description for all categories listed below for which you are seeking **City Funding Only**.

We have included those required elements in the spaces below. See instructions when listing personnel expenses. Please feel free to add additional lines as necessary to provide explanations using the line insert feature.

II. Operating Expenses

Occupancy Expenses

Occupancy-related costs include park usage support, temporary structures for educational stations, and other site accommodations necessary to host community members, volunteers, and program partners. These resources ensure that residents can comfortably participate in hands-on demonstrations related to oyster reef restoration, flood resiliency, and environmental stewardship along the St. Johns River and Trout River. Also, equipment storage is needed to hold and stage the various displays and stations when not being used.

Equipment Storage	\$1,000.00
Event Insurance	\$500.00
Total	\$1,500.00

Office Expenses

Office expenses include basic supplies such as paper, ink, folders, and communication tools needed to coordinate with community partners, volunteers, and participating residents. These resources support program organization, community outreach, and the distribution of educational materials that help residents better understand environmental restoration efforts and generational land ownership protections.

Office & Other Supplies	\$3,500.00
Printing & Advertising	\$1,500.00
Publications	\$500.00

Grant funds will support limited contractor costs necessary to coordinate and implement the educational programming of OysterFest at Riverview Park. Contractors will be responsible for program planning, partner coordination, volunteer management, and event logistics related to environmental education, oyster reef stewardship activities, and heirs' property awareness programming.

Professional Services	\$6,000.00
-----------------------	------------

Responsibilities will include coordinating with environmental partners and educators, organizing youth and community engagement activities, managing volunteers participating in oyster stewardship demonstrations, facilitating educational workshops, and overseeing outreach to ensure strong community participation. Contractors will also manage grant compliance, track participation metrics, and prepare reporting on program outcomes and impact.

These wages will ensure the program is effectively organized and delivered, allowing RCCO to provide high-quality educational experiences that advance environmental stewardship, flood resiliency awareness, and generational wealth protection for residents in the Riverview community.

Grant funds will support the purchase of equipment necessary to conduct interactive environmental Equipment will include signs, educational display materials and hands-on demonstration tools such as oyster shells, shell bags, mesh bags, buckets, gloves, and water testing kits used to illustrate how oyster reefs filter water and create habitat for marine life. Additional materials include demonstration tables, portable display boards, and visual aids that explain how oyster reef installation can reduce wave energy and support flood resiliency in waterfront communities. In addition, these tools will allow RCCO to provide clear and accessible education on heirs' property, estate planning, and land ownership protection for residents in the Riverview community.

Other - Equipment under \$5,000 -	\$12,000.00
-----------------------------------	-------------

Total \$23,500.00

These demonstration tools will help create engaging, hands-on learning experiences that allow participants to see and understand how oyster reefs function as natural infrastructure that improves water quality, restores habitat, and helps protect vulnerable shorelines like those in the Riverview neighborhood.

The equipment will be reusable for future environmental education programs and community stewardship activities organized by RCCO throughout the year.
