- Requires applicants to show hydrants, business signs and front/principal facades of businesses, site photographs and certification of compliance with applicable FCC regulations on application and engineering plans.
- Creates an administrative deviation process for certain size limitation for equipment and pole diameter, which may be approved by the Planning Department if the request is necessary because of the technical or engineering needs of the applicant.
- Adds a requirement that any administrative review by the Director or City Council of a final determination must be completed and a written decision issued within 45 days after a written request for review is made. SB 1000, 337.401(7)(d)9, Florida Statutes
  - Differentiates between 4G and 5G antennae regarding the need for antennae location and shrouding due to the technological differences between each.
  - Requires new and replacement poles to be located a distance of 10 feet from driveways and 30 feet from hydrants, but only if the relocation is approved by the pole owner (typically JEA).
  - Requires that 5G antennae and their connections to the pole must be completely shrouded, in line with the pole and must smoothly transition around pole top.
  - Requires that the diameter of a replacement pole cannot be greater than 1.5 times the diameter of the existing pole.
  - Requires that the depth of pole mounted equipment shall not exceed 20 inches and width shall not exceed 2.5 times the diameter of pole.
  - Requires that new poles have a diameter at base no greater than 1.5 times diameter of the largest existing pole within 500 feet in a corridor.
  - Prohibits a new pole within two feet of an existing sidewalk or multi-use trail, or where City has plans for a new sidewalk or multi-use trail.
  - Requires that new poles must be located equidistant between existing poles unless doing so results in an impermissible distance limitation.
