III. STATEMENTS

A. How does the proposed PUD differ from the usual application of the Zoning Code?

The PUD differs by providing flexibility and certainty in the site design that could otherwise not be accomplished through conventional zoning.

B. Describe the intent for the continued operation and maintenance of those areas and functions described herein and facilities which are not to be provided, operated or maintained by the City.

The property owner will maintain all areas and functions of the property.

C. Justification for the rezoning:

- (1) Is more efficient than would be possible through strict application of the Zoning Code;
- (2) Is consistent with the 2030 Comprehensive Plan Future Land Use Element Policy:

1.1.12: Promote the use of Planned Unit Developments (PUDs) cluster developments, and other innovative site planning and smart growth techniques in all commercial, industrial and residential plan categories, in order to allow for appropriate combinations of complementary land uses, and innovation in site planning and design, subject to the standards of this element and all applicable local, regional, State and federal regulations.

3.2.2 The City shall promote, through the Land Development Regulations, infill and redevelopment of existing commercial areas in lieu of permitting new areas to commercialize.

3.2.7 The City shall implement the locational criteria of this element for commercial and industrial uses consistent with the character of the areas served, availability of public facilities, and market demands

- (3) Is consistent with FLUE Objective:

3.2 Continue to promote and sustain the viability of existing and emerging commercial and industrial areas in order to achieve an integrated landuse fabric which will offer a full range of employment, shopping, and leisure opportunities to support the City's residential areas.

D. Phase schedule of construction (include initiation dates and completion dates):

This project may be developed in Phases, initiation and completion dates to be determined.

E. Secondary Zoning District:

October 9, 2019

The current land use of LDR allows for CRO as a secondary use meeting the criteria of section 656.350 (h). This project meets 656.350 (h) 1, 3, and 4. By the Planned Unit Development Designation of this application and as stated in Section 656.350 (p) the Written Description describes otherwise within the Design Guidelines and Site Plan therefore negating 656.350 (h) 2. This is necessary to develop the entire parcel and not just a small portion of the parcel.

The current land use of LDR also allows for RMD-A as a secondary use meeting the criteria of 656.350(d) which has no additional criteria.

IV. USES AND RESTRICTIONS
