Dear councilmembers,

I am writing as a constituent to request that there be more transparency and opportunities for public participation in regards to decisions on how the city of Jacksonville will spend the approximate 163.81 million dollars of fiscal recovery funds it will receive from the American Rescue Plan.

On behalf of several community organizations, including the Jacksonville Community Action Committee, we ask for your support in using APR resources to provide the vital assistance needed by our communities that have suffered from increases in victimization associated with the pandemic. By investing in solutions that provide targeted prevention and recovery to communities most impacted by poverty, crime, and unaddressed trauma, Jacksonville can increase promote safety and well-being of all its residents.

Sincerely,

Maria I. Garcia

The Causes and Effects of Caucasian Race Ignorance and Mental Health.

"When someone shows you who they are, believe them the first time." Maya Angelou

As the Managing Director of the African American Economic Recovery Think Tank, LLC, I support truth over ignorance. Too often, civic and social leaders focus on the effect of White Supremacy Ignorance instead of the true causes (racism/greed/power/the legacy of murder). The @AAERTT called it low-vibrating generational self-hatred by a segment of the Caucasian Male Race since their origins in the mountains of Russia. Proven factual history, not the @AAERTT history or research. Imperative Evidence shows that ethical Caucasian leaders need to go back to the beginning of the cause or causes to find the answer for the Evil. Look at America today. Over 50 plus mass shootings this year in five months.

The Caucasian Race is in profound denial of its holistic murder history of Humanity's past, present, and bleak future. The Adult Caucasian males in power must stop with the generational legacy of self-hatred by its design in America. Those who use others for a dollar or murder others holistically are Majority Caucasian Males in Power. Past Presidents, past and present Senators, and Congressperson majority Caucasian males over 50 plus years of Age. This Racism is a conversation only the Caucasian Race must address and change alone. Then the rest of America and the world can find peace and prosperity for all on this planet called earth.

Ethical scientists and thinkers worldwide show the need to focus on maintaining life (Air, Water, Food, and Shelter) as a mandate for all leaders. Ethical Caucasian leaders understand the meaning of life and why we must protect it by any means necessary.

African American leaders must focus once again on rebuilding the four pillars of African American life in America.

Four Community Building Pillars proactively.

1. Family Infrastructure (Home Economics Management)
2. Elementary Education based on Afrocentric Arts, History, and STEM Technology.
3. Preventative Health (Obesity, Social Mental Health, Sexual Diseases, etc.)
4. Cooperative Economics (Business Ownership).

The @AAERTT research shows since the post-slavery era, African American race has achieved four economic recoveries by its own bootstrapped, and all recoveries stopped by laws created by Male Caucasian leaders and enforced by Caucasian law enforcement racism.

Since the Post-Civil Rights era, African American leadership is dead. The failure of Affirmative Action, Integration, and the African American Classism among the leaders stymies the Economic Growth today. With the 13, 14, and 15 Constitution laws on the books and social media to control the narrative in our village for the first time, we can grow holistically and vertically as a people permanently.

"No race can be said to be another's equal that can not or will not protect its interest. This new order can be brought about once the Negro acknowledges the wisdom in uniting his forces and pooling his funds for the common good of all. Other races have gained great wealth and outstanding power by following this simple rule, and it is hope someday that the Negro will do the same. —Wilson (1942c, 1–2)

Today, because of substantial social injustices in the south and 400 plus years of racial murder demands, new laws provide more equity and opportunities for the African American leaders to rebuild the family infrastructure first while looking from within for its economic resolve. Non-profits are not Business Development Solutions for any race unless it a Cooperative Economic Solution.

Once the African American leaders apply proven economic methodology proactively (Four Pillars of the @AAERTT), collectively decrease self-inflicted consumerism and religious fanaticism, the African American race will elevate to the middle-class status growing vertically and holistically in 10 years.

In closing, it's bigger than changing a school name or group of school names. It's an evil racial systemic ideology destroy, first. Only the Caucasian race can destroy the self-hatred for Humanity perpetuated by murder and greed in America and throughout the world.

It's more than a school name; it's a war against good and Evil perpetrated by a segment of the Caucasian Race leadership ignorance, greed, and power in the world. Evil begets Evil in America caused by a misguided element of the Caucasian Race leadership against the world.

It's more than just being homeless in Jacksonville and America. It's a leadership problem. The lack of critical thinking leadership, civic and social engagement in Jax perpetuates this social issue and hinders the residents' quality of life. People, the question should be, why are there homeless people in Jacksonville? Exact how many homeless people and families are in Jax? The wraparound services are one of the keys to empowerment for most homeless people or families.

CCM Pittman should have addressed it months ago. CCM Pittman, the Mayor, and all the At-Large City Council Members need to apologize to the community for failing to have an ethical plan. I can say this all sides of Jacksonville should care for the homeless. The City and Developer can build tiny blockhouses for the homeless to live in for six months (Veterans a year). One of the main goals for leaders is to keep the density of the homeless community small. One of the keys is gainful employment for those so can physically work and self-esteem building. Stanley Scott, @aaertt

Mr. Nicks, what does favorably means to you? Are you telling me African Americans cannot go to the beaches in large numbers in America, Mr. Nicks? I have not read any law that said African Americans could not gather in large numbers at the beaches in America. Should you know the answer to your question?

Where is the equity for African American people in Jacksonville? It's ok to take African Americans' money but want African Americans in Jacksonville, FL, to go to the backdoor for service. African Americans pay taxes in America, right? So what is the reason for the hatred? Are you telling me the mayoral leadership in Duval and Surrounding counties hate African American people? What is truly evil is that the supposed-to-be events are at three locations in Jacksonville, not the beaches? Jacksonville is a large country town with an NFL Football Team with 1.4 million people in the metro areas. Most of the male football players are African Americans.

Additionally, we have African Americans servicing in the military in Jacksonville. Regardless of Race, anyone can break the law to harm or hurt someone or others. Where is the information to show past riots or murder in the streets at an event of this nature? It's the leadership and law enforcement's duty to serve and protect all civilians regardless of race. Not marginalized a race because of embedded self-inflicted fear/hate/greed. Plus, it budget time for law enforcement too.

In closing, an evil segment of the Caucasian Race leadership does not love African American people. Jacksonville has a 150 plus years history of racism in Jacksonville, Florida. Those are not the AAERTT facts. The Great Fire, Axe Handle Saturday, redlining, Consolidation, and other hateful acts against African Americans. The Caucasian Race is in denial of its mental illness and murder legacy. You can see the mental illness numbers of opioids and the mass-murdering epidemic, you see, in 2021.

Regardless of race, if you damage or impair an individual or individuals, period, you need to be confined. The last time I saw a riot was on the television, taking place inside the US Capital perpetuated by misguided Republican constituents, Caucasian Male. The Caucasian race is in denial of its contribution to racism in America. Mr. Nicks, do you think racism exists in Jacksonville?
