

The Core 2 Coast Trail

A Plan to Bring the East
Coast Greenway to
Downtown Jacksonville

Maine to Florida:

greenway.org

Canadian border to the Florida Keys: Moose to the Manatee

Connecting local and regional trails together.

The East Coast Greenway is over 1/3 complete with more than 1,000 miles of shared-use biking and walking paths, being linked together up and down the coast.

The East Coast
Greenway is more
than a trail.

It's a tourism
attraction,
good for local
business.

It's a
community
center bringing
people together.

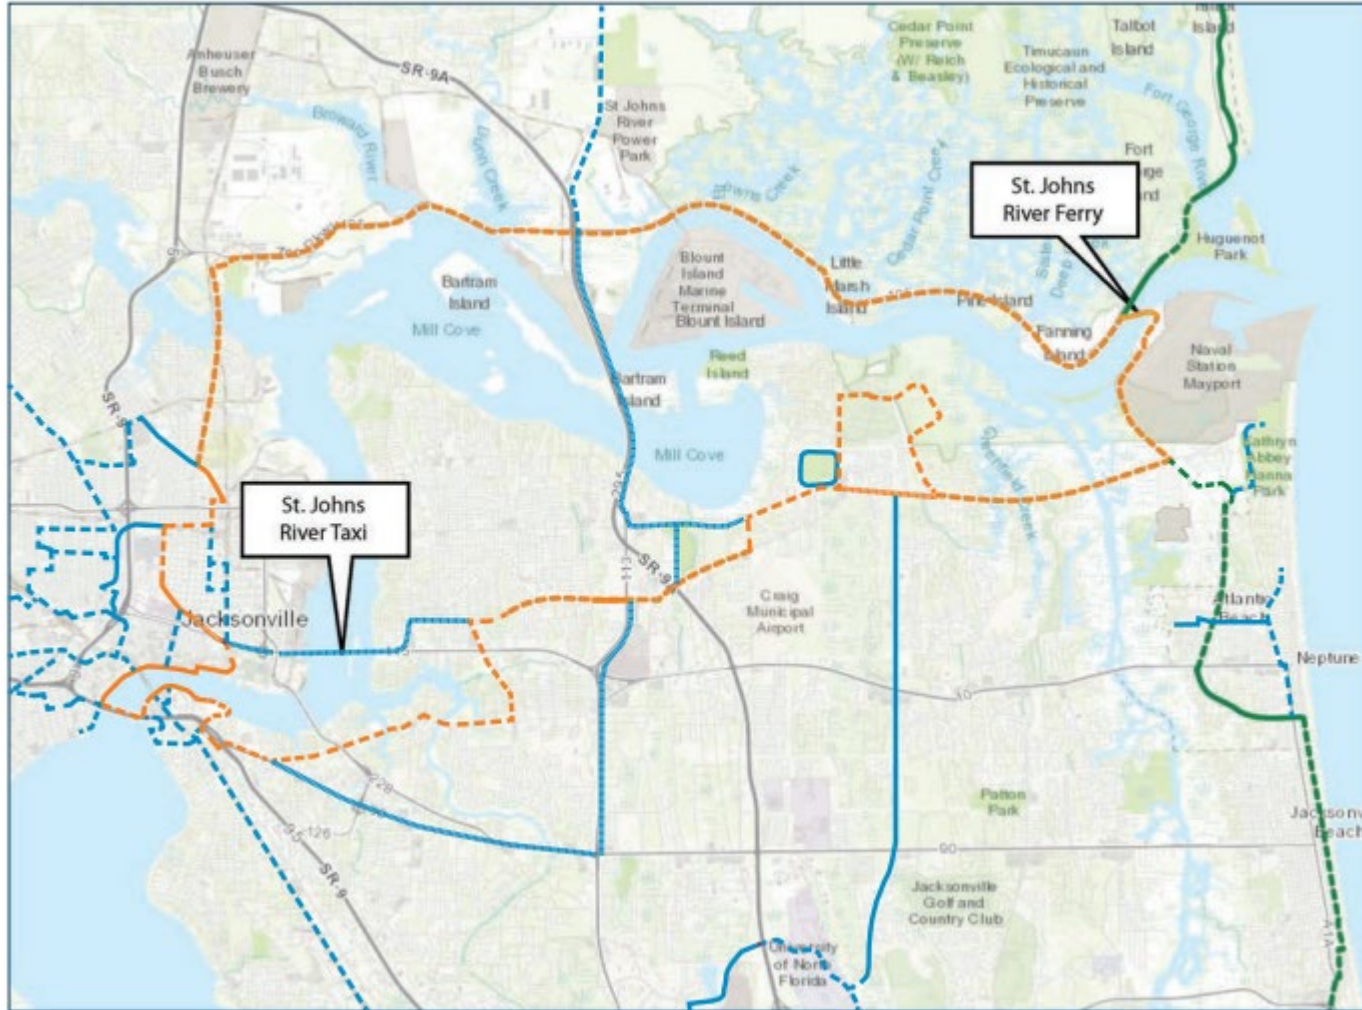

It's infrastructure
that tackles
climate change.

It's access to
nature and
mental health.

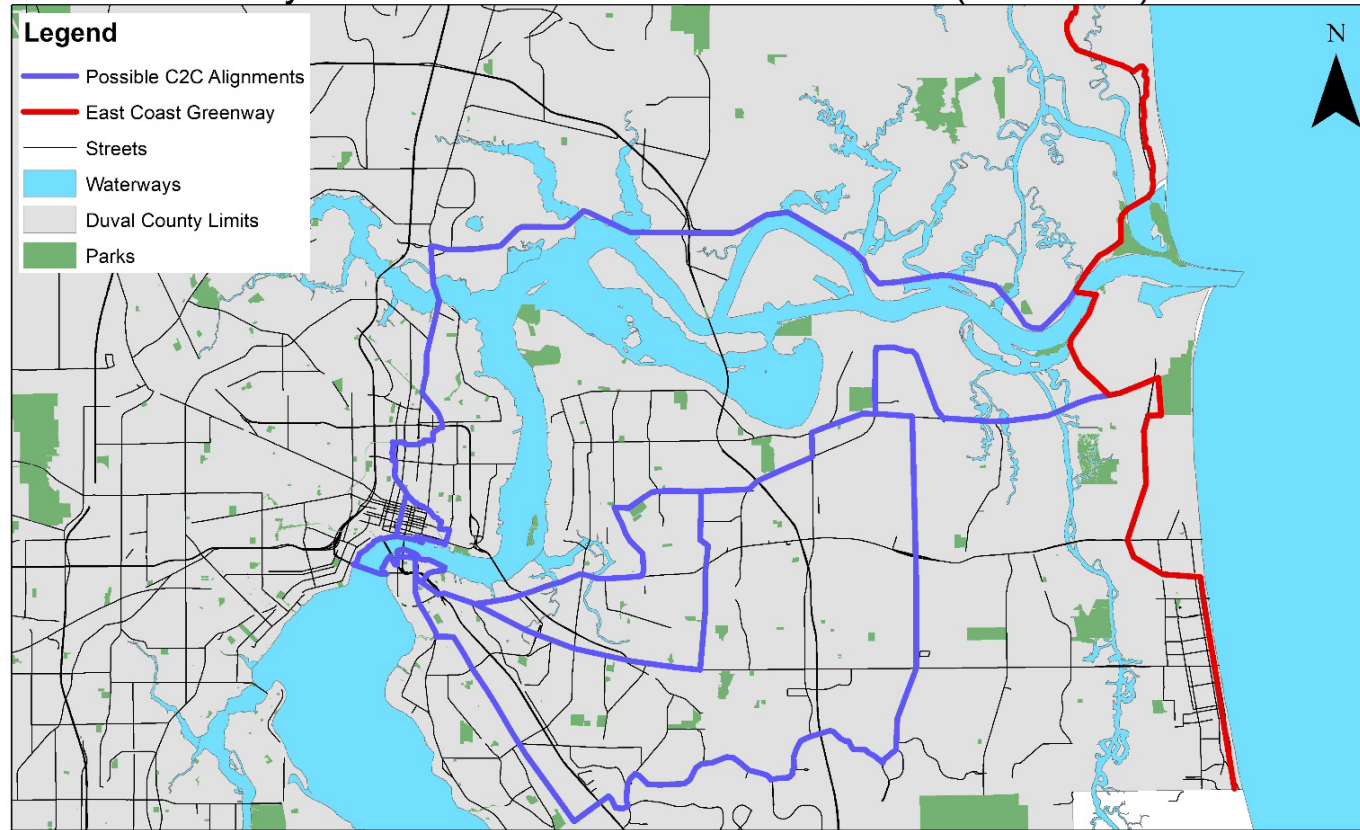

REGIONAL BICYCLE NETWORK

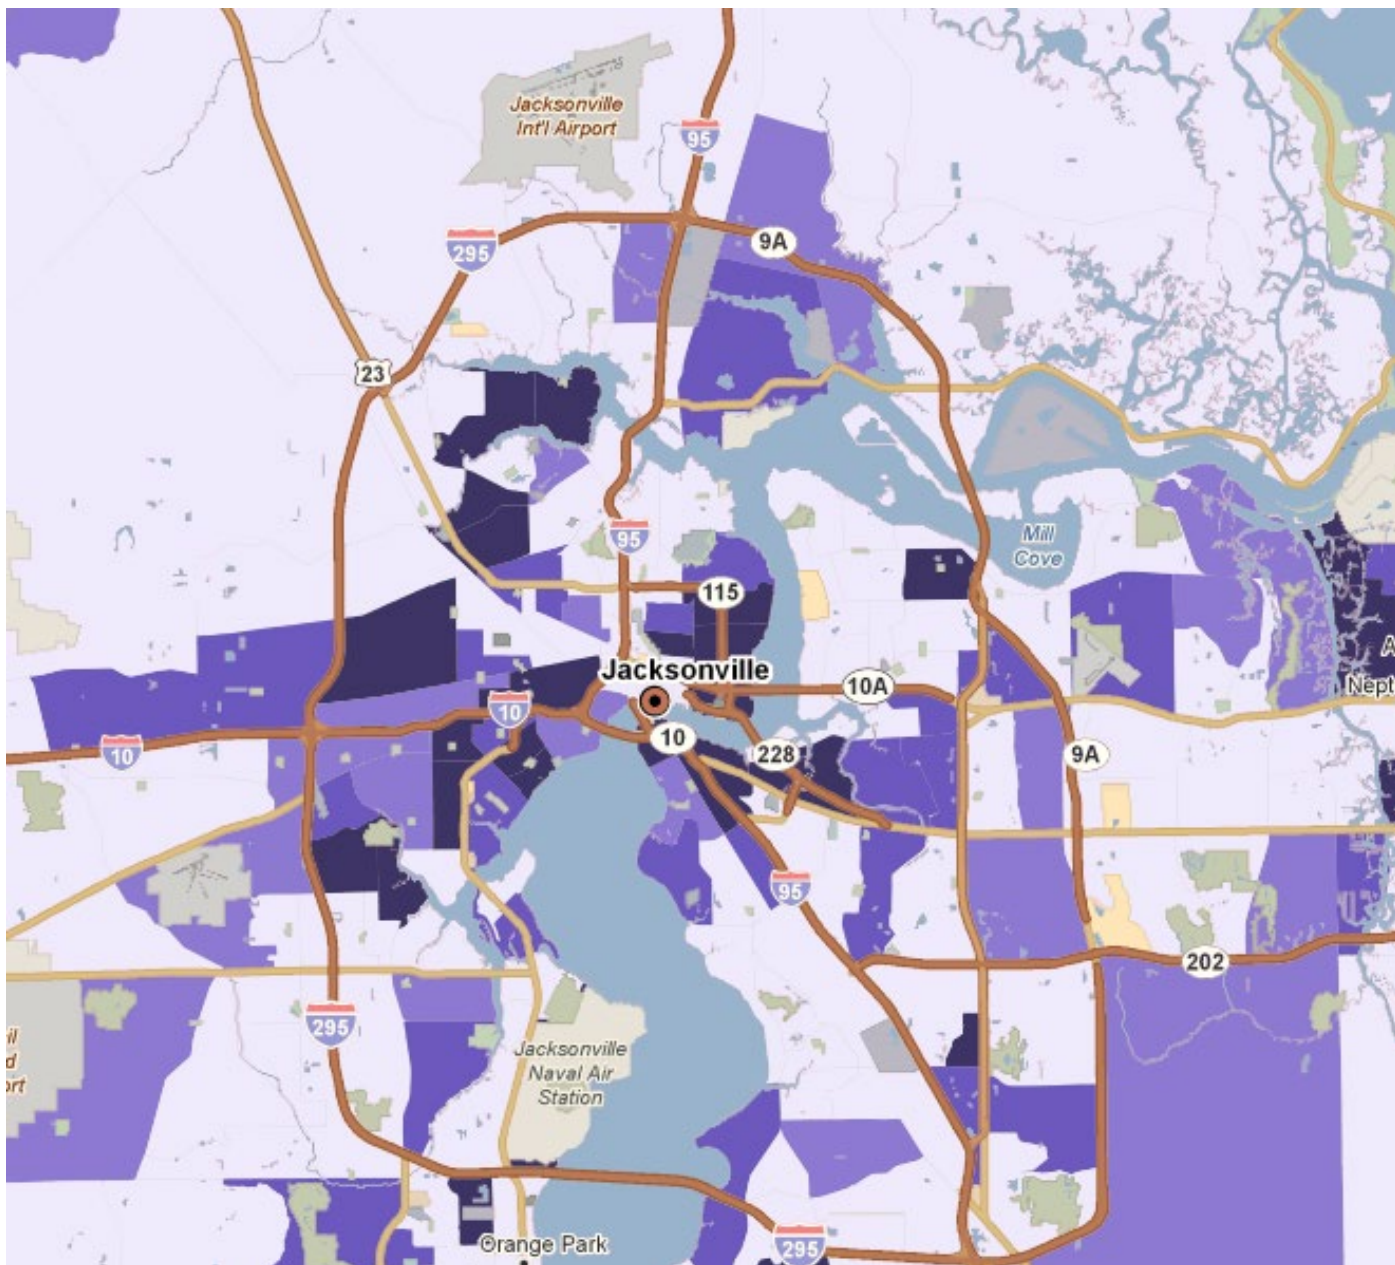

The Core to Coast Trail will connect Downtown Jacksonville to the Beaches.

City of Jacksonville: Core 2 Coast Trail (C2C Trail)

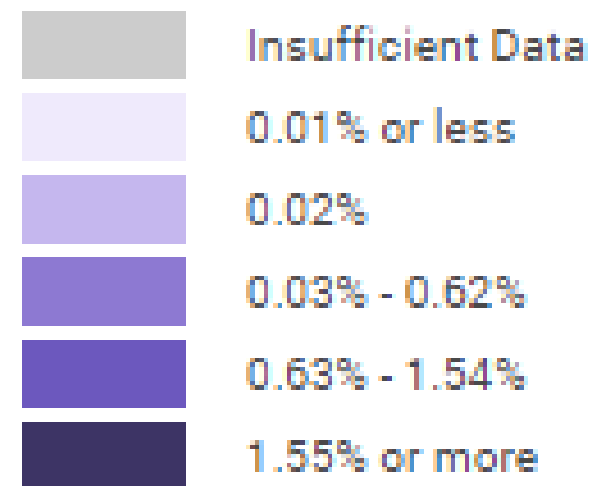

2022 USDOT RAISE Grant: Core-2-Coast Study

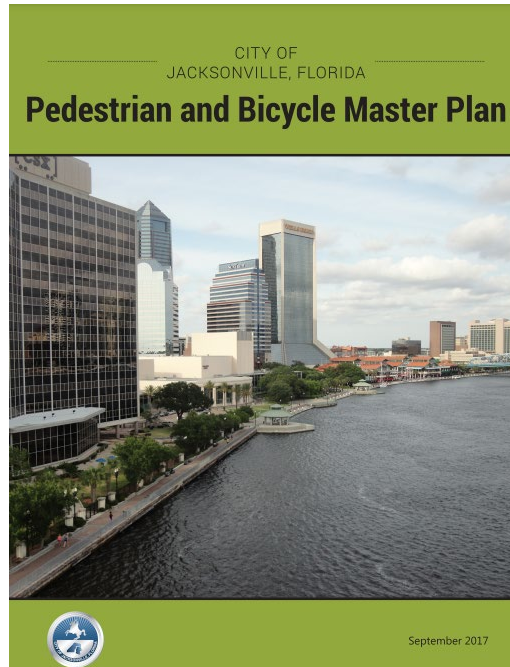

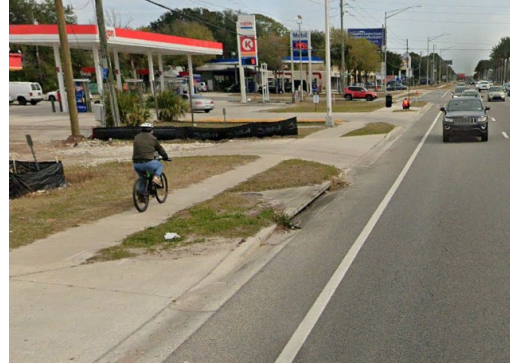

Bicycle Commuters

Percentage of residents that reported riding a bicycle to work: 2015-2019 American Community Survey (ACS)

Source: policymap.com/maps

“A significant number of bicyclists were observed using the sidewalk rather than the roadway. Of the total 250 bicyclists observed during the counts, almost 150 were riding on the sidewalk.”

-COJ Pedestrian and Bicycle Master Plan (2017) pg. 20

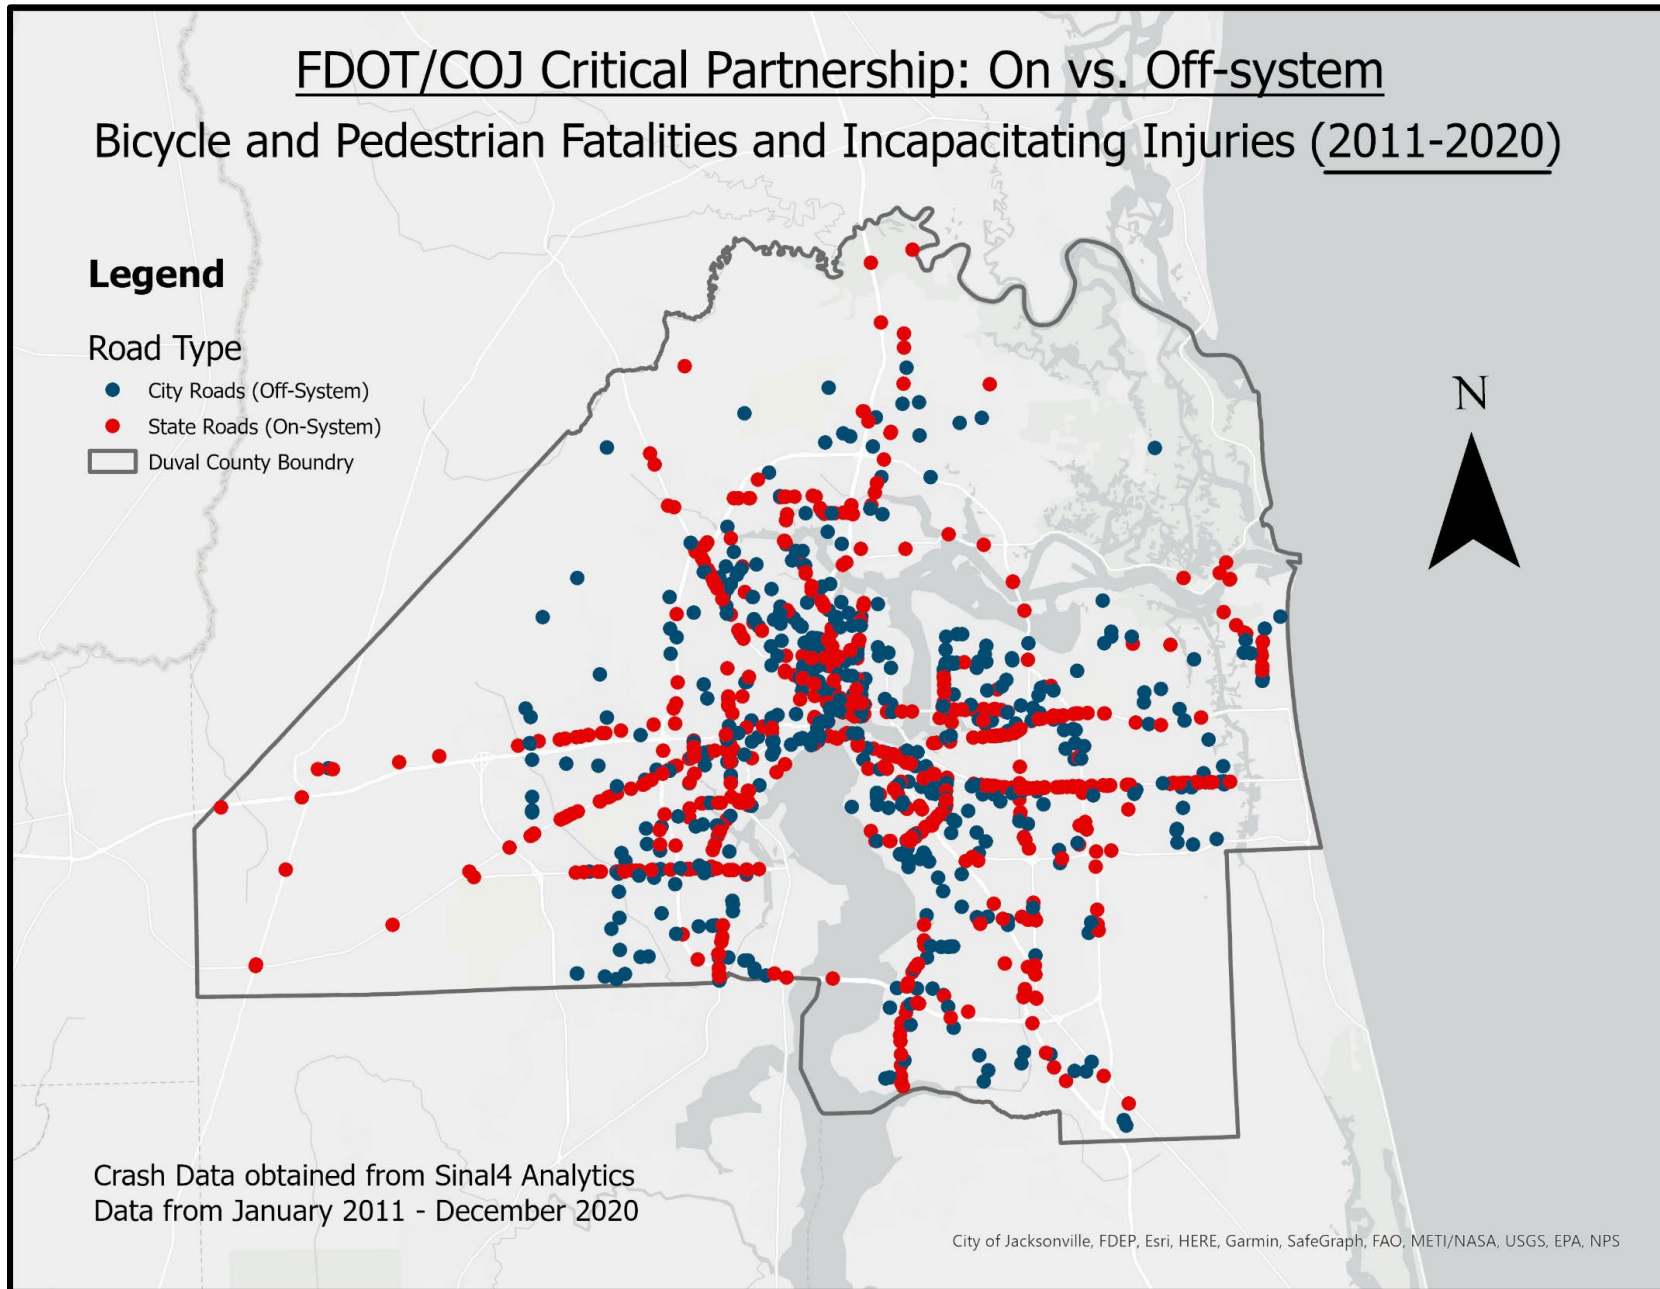

FDOT/COJ Critical Partnership: On vs. Off-system

Bicycle and Pedestrian Fatalities and Incapacitating Injuries (2011-2020)

Legend

Road Type

- City Roads (Off-System)
- State Roads (On-System)
- Duval County Boundry

Crash Data obtained from Sinal4 Analytics
Data from January 2011 - December 2020

City of Jacksonville, FDEP, Esri, HERE, Garmin, SafeGraph, FAO, METI/NASA, USGS, EPA, NPS
