Jacksonville, FL 32202

JTA Litter Report for March 28, 2023

Mr. Dubec:

Below is a summary of the Jacksonville Transportation Authority's (JTA's) current bus stop and shelter maintenance program and recommendations for enhanced services using money allocated from the Litter Trust Fund:

- The cleaning, trash removal, and grass cutting at bus stop and shelter locations are the responsibility of JTA and a JTA Contractor.
- Currently there are 422 shelters (342 stops) and 794 bus stops with trash receptacles.
- JTA maintains and removes trash from the 515 bus stop locations once a week and JTA's contractor maintains and removes trash from the 330 shelter locations (376 shelters) once a week, for a total of 877 trash receptacles at 794 stops. Sheltered bus stops in the central business district are serviced twice a day Monday through Friday. Transit hub locations are serviced daily, Monday through Friday. All First Coast Flyer locations are serviced three times a week. There are also a number of high ridership locations throughout the city that receive increased cleaning frequency.
- JTA's total operating cost to maintain bus stops is approximately \$1,094,000.
- JTA also has a capital investment for needed equipment.
- JTA received \$80,375.98 last year from the City of Jacksonville Litter Trust Fund.
