

Terms established by the Council Rate Review Process;

1. The Monthly Base Rate Component had been adjusted on October 1, 2021 to \$14.66 and will continue at such rate through September 30, 2022. Commencing October 1, 2022 the Base Rate Component shall be \$19.01, and, shall be adjusted thereafter, if necessary, pursuant to the Agreement.

2. The fuel cap numbers shall be 535,100 gallons for FY 2022/2023.

3. Effective October 1, 2022, 49 residential premises will be deducted from the September 30, 2022 premise count to determine the beginning number for Service Area III. The ending number of Residential Premises per the September 30, 2022 invoice was 79,449.

4. As disposal sites change, travel times may change and compensation may increase or decrease as a result. The City and the Contractor agree that the hourly rate per route is deemed to be \$136.74 from October 1, 2022, through September 30, 2023. Thereafter, the hourly rate per route shall be adjusted in accordance with the Agreement.

5. If and when the Mayor declares a Storm Emergency event, the City agrees to pay the Contractor \$153.89 per ton for collection of Storm Yard Waste, as stipulated and adjusted pursuant to the Agreement.
