CRITERIA

Section 656.101(I), Ordinance Code, defines a waiver as "a relaxation of the Zoning Code minimum distance requirements for liquor license locations, pursuant to Section 656.805, Ordinance Code."

Section 656.133(a)1 through 5, Ordinance Code, provides that, with respect to action upon Applications for Waivers, the Planning Commission may grant a waiver for minimum distance requirements from a church or school for a liquor license location, if there exist one or more circumstances which negate the necessity for compliance with the distance requirements, included but not limited to the following:

- The commercial activity associated with the alcoholic beverage use is of a lesser intensity than the commercial activity associated with the alcoholic beverage use which previously existed; e.g., there has been a reduction in the number of seats or square footage or type of license;
- The alcoholic beverage use is designed to be an integral part of a mixed planned unit development;
- iii. The alcoholic beverage use is located within a shopping center with an aggregate gross leasable area of 50,000 square feet or more, inclusive of all outparcels, and meets the definition of a bona-fide restaurant as defined in Section 656.805(c);
- The alcoholic beverage use is not directly visible along the line of measurement defined in Section 656.806 and is physically separated from the church or school, thereby negating the distance requirement as a result of the extra travel time; or
- There are other existing liquor license locations of a similar nature in the immediate vicinity of the proposed location; provided however, that no waiver shall be granted pursuant to this criterion if the proposed liquor license location is closer to the church or school than other existing locations.
