

**Project Title:** Underdrain Replacements **Council District(s):** CW  
**Project Location:** Countywide **Project Number:** 009017  
**Department:** Public Works **Program Area:** Drainage  
**Ordinance No.:** **BT No.:** **Useful Life:** **Project Completion Date:**

**Project Description:**

Underdrain is a drainage system installed under a road to collect and transport subsurface groundwater. These buried conduits are usually wrapped in geotextile fabric which allows water to enter the underdrain while keeping sediments out. Underdrain is installed to keep the groundwater (protect) from coming in contact with the roadway subgrade and base.

**Justification:**

After many years of operating underdrain systems lose their effectiveness by becoming clogged and no longer capture groundwater. Once this occurs the roadway useful life becomes compromised and shortened.

**Project Title:** Drainage System Rehabilitation **Council District(s):** CW  
**Project Location:** Countywide **Project Number:** 001031  
**Department:** Storm Water Services **Program Area:** Drainage  
**Ordinance No.:** \_\_\_\_\_ **BT No.:** \_\_\_\_\_  
**Useful Life:** \_\_\_\_\_  
**Project Completion Date:** \_\_\_\_\_

**Project Description:**

This allocation funds countywide improvements to the City's stormwater drainage system. The improvements are focused on system restoration to ensure that all components function in accordance with their intended purpose. Components such as failed drainage lines and structures make up the majority of these improvements. The funding is projected to be used for continuing maintenance contract services.

**Justification:**

The improved drainage systems will allow the system components to function in accordance with their intended purpose and reduce flooding throughout Jacksonville.

**Project Title:** Saddle Road Underdrain Repair **Council District(s):** 12  
**Project Location:** 7610 Saddle Road **Project Number:** 010869  
**Department:** Public Works **Program Area:** Roads / Infrastructure / Transportation  
**Ordinance No.:** \_\_\_\_\_ **BT No.:** \_\_\_\_\_ **Useful Life:** \_\_\_\_\_ **Project Completion Date:** \_\_\_\_\_

**Project Description:**

This project will remove and replace the existing inlets at the Saddle Road and Westgate Drive intersection, install new underdrain pipe near 7610 Saddle Road, clean the remaining existing drainage pipe, and perform pavement repairs as needed.

**Justification:**

This project is necessary for underdrain repair.

**Project Title:** Sunbeam Road (DSR) - Capital Improvement **Council District(s):** 5  
**Project Location:** Sunbeam Road **Project Number:** 001377  
**Department:** Public Works **Program Area:** Roads / Infrastructure / Transportation  
**Ordinance No.:** \_\_\_\_\_ **Useful Life:** 25 years **Project Completion Date:** \_\_\_\_\_

**Project Description:**  
 Repair an established 65 foot City of Jacksonville drainage easement ditch and embankment inside the property of the Woodlake Apartments. Remove approximately 348 feet of the existing concrete and replace with new concrete ditch that is better suited to last longer under the current drainage patterns.

**Justification:**  
 The existing concrete ditch is failing along the ditch alignment.

**Project Title:** Silver Street Drainage Improvements **Council District(s):** 7  
**Project Location:** Silver Street **Project Number:** 010386  
**Department:** Public Works **Program Area:** Roads / Infrastructure / Transportation  
**Ordinance No.:** **BT No.:** **Useful Life:** 25 years **Project Completion Date:**

**Project Description:**  
 This project proposes to remove and replace the existing storm drainpipe and inlet system on Silver Street beginning near 7th Street and ends at the outlet at Hogan's Creek in Klutho Park.

**Justification:**  
 The Silver Street drainage improvement project is proposed to reduce major roadway flooding at Silver Street and 7th Street.
