To appropriate fund balance from the Environmental Protection Fund to the University of Florida Center for Coastal Solutions to conduct a multi-criteria vulnerability assessment of all single family residential septic systems and a prioritization of single family residential septic to sewer conversion projects. These two tasks will empower Jacksonville, Baldwin, Atlantic Beach, Neptune Beach, and Jacksonville Beach to identify in a data-driven and geographically standardized way the level of risk septic systems may be facing in their jurisdictions, and to create septic-to-sewer conversion project groupings that are financially and spatially efficient and are most likely to reduce septic system risk failure. A waiver of Section 118.107 is needed in order to allow for a direct contract with the U of F Center for Coastal Solutions without competitive evaluated award.
