**Bill Summary:** This bill appropriates \$496,965.00 under the Hazard Mitigation Grant Program to acquire and demolish a flood-prone property and return it to green space, as initiated by B.T. 19-100; amends the 2019-2023 Five-Year Capital Improvement Program (CIP) approved by Ordinance 2018-505-E to provide funding for the project entitled Acquisition & Demo of Floodprone Property – Oakwood Drive; authorizes the Mayor, or his designee, and the corporation secretary to execute and deliver, for and on behalf of the City, the Federally-Funded Subaward and Grant Agreement between Florida Division of Emergency Management (FDEM) and City of Jacksonville; and provides for City oversight by Emergency Preparedness Division.

**Background Information:** The Hazard Mitigation Grant Program (HMGP) is authorized by Section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act. HMGP is a partnership that is designed to assist states, local governments, private non-profit organizations, and Indian Tribes in implementing long-term hazard mitigation measures following a major disaster declaration. Although the Hazard Mitigation Grant Program is federally funded, the program is administered by the Florida Division of Emergency Management. The appropriation includes \$372,723.75 from the Federal Emergency Management Agency (FEMA) through the FDEM and a 25% city match of \$124,241.25 from General Fund GSD.

The property is located at 6732 Oakwood Drive, Jacksonville, FL 32211. There are four recorded flood loss claims on this property with FEMA. The project will remove the structure from the threat of future flood damages for the current residents and reduce future public costs. The CIP amendment is necessary to immediately address the flooding concerns in the best interest of the community.
