

REPORT OF THE PLANNING AND DEVELOPMENT DEPARTMENT FOR
APPLICATION FOR REZONING ORDINANCE 2019-314

JUNE 6, 2019

The Planning and Development Department hereby forwards to the Planning Commission, Land Use and Zoning Committee and City Council its comments and recommendation regarding Application for Rezoning Ordinance **2019-314**.

Location: 12055 Dunn Creek Road; between Dutton Island Road West and Dead end

Real Estate Numbers: 106527-0000

Current Zoning District: Residential Rural-Acre (RR-Acre)

Proposed Zoning District: Residential Low Density-50 (RLD-50)

Current Land Use Category: Low Density Residential (LDR)

Planning District: North, District 6

Applicant/Agent: Mann-Pellicer
Charles L. Mann
165 Arlington Rd
Jacksonville, Florida 32211

Owner: Carmen N Brockdorf
12055 Dunn Creek Road
Jacksonville, Florida 32218

Staff Recommendation: **APPROVE w/ recommendation for RLD-60**

GENERAL INFORMATION

Application for Rezoning Ordinance **2019-314** seeks to rezone 18.00± acres from Residential Rural-Acre (RR-Acre) to Residential Low Density-50 (RLD-50) for the purpose of developing the property with a single-family subdivision. The subject site has approximately 685 feet of frontage on Dunn Creek. The proposed development will be required to connect to JEA utilities for central water and sewer to achieve the minimum lot sizes in the zoning district. The PUD to the north and east allowed for duplexes on 75 feet wide lots. The other subdivision to the southeast is zoned RLD-90 and RLD-60. To the west and south properties are zoned RR-Acre, which allows for single-family dwellings on minimum one acre lots.

Because of the zoning districts and an examination of the lot sizes surrounding the subject property the Planning & Development Department has recommended approval of RLD-60, instead of the requested RLD-50, to transition from the PUD containing duplexes on 75 feet wide lots and the RLD-90 and RLD-60 subdivision to the south east and the remaining surrounding lots zoned as RR-Acre.

STANDARDS, CRITERIA AND FINDINGS

Pursuant to Section 656.125 of the Zoning Code, an applicant for a proposed rezoning bears the burden of proving, by substantial competent evidence, that the proposed rezoning is consistent with the City's comprehensive plan for future development of the subject parcel. In determining whether a proposed rezoning is consistent with the 2030 Comprehensive Plan, the Planning and Development Department considers several factors, including (a) whether it is consistent with the functional land use category identified in the Future Land Use Map series of the Future Land Use Element; (b) whether it furthers the goals, objectives and policies of the Comprehensive Plan; and (c) whether it conflicts with any portion of the City's land use regulations. Thus, the fact that a proposed rezoning is permissible within a given land use category does not automatically render it consistent with the 2030 Comprehensive Plan, as a determination of consistency entails an examination of several different factors.

1. Is the proposed rezoning consistent with the 2030 Comprehensive Plan?

Yes. The subject site is located on the east side of Dunn Creek Road and just north of the Bardin Road / Dunn Creek Road intersection and south side of Caney Oaks Drive. Both roads are classified as a local roads according to the City's Roadway Classification Map. The applicant seeks to rezone the property from RR-Acre to RLD-50 in order to develop a single-family subdivision. The application site is located in the LDR land use category within the Suburban Development Area as identified in the Future Land Use Map series (FLUMs) of the Future Land Use Element (FLUE) of the 2030 Comprehensive Plan. The site is also located in Planning District 6 and Council District 2.

According to the Future Land Use Element (FLUE), LDR in the Suburban Area is intended to provide for low density residential development. Single family dwellings are a principal use in the LDR land use category. The maximum allowable density for the LDR land use category is seven (7) units/acre when full urban services are available.

Based on the City's GIS Infrastructure Map there is a 6 inch sewer main on the south side of Caney Oaks Drive right-of-way adjacent to the subject site, an 8 inch sewer main on the north side of the Caney Oaks right-of-way, and a 6 inch sewer main on the west side of Dunn Creek Road right-of-way at the northern end of the subject site. In addition, there is an 8 inch water main on the north side of the Caney Oaks Drive right-of-way and a 12 inch water main on the eastern side of the Dunn Creek Road right-of-way along the frontage of the northern portion of the subject site.

The property is completely surrounded by LDR land use. The requested RLD-40 rezoning is consistent with the LDR Land Use Category description however the Department believes that RLD-60 is more consistent with the surrounding Zoning Districts, providing a buffer for the remaining RR-Acre to the south, the RLD-90 to the east from the PUD which allowed for duplexes on 75 feet wide lots to the north. The rezoning should demonstrate full consistency with the other identified Policies as described above in order to be deemed consistent with the general intent of the Comprehensive Plan.

2. **Does the proposed rezoning further the goals, objectives and policies of the 2030 Comprehensive Plan?**

Yes. The proposed rezoning is consistent with the listed objectives, policies and goals of the Future Land Use Element (FLUE) of the 2030 Comprehensive Plan. The proposed rezoning to RLD-50 promotes a pattern of compatible uses (*i.e.* single family dwellings) consistent with the surrounding area and future development. However the lot size is not consistent with the surrounding zoning districts. Therefore, the proposed rezoning to RLD-60, as recommended by Staff, will allow the property to be developed in a lot pattern that is a good buffer and transition for the surrounding area.

Future Land Use Element

Policy 1.2.9

Require new development and redevelopment in the Central Business District, Urban Priority Area, Urban Area, and Suburban Area to be served by centralized wastewater collection and potable water distribution systems when centralized service is available to the site. New septic tanks in this area maybe permitted only as interim facilities pursuant to the requirements of the Sanitary Sewer Sub-Element.

The proposed development will be required to connect to JEA utilities for central water and sewer to achieve the minimum lot sizes in the zoning district. Otherwise, the lots will have to comply with standard set forth in the *2030 Comprehensive Plan*.

Objective 3.1

Continue to maintain adequate land designated for residential uses, which can accommodate the projected population and provide safe, decent, sanitary and affordable housing opportunities for the citizens. Protect single-family residential neighborhoods by requiring that any other land uses within single-family areas meet all applicable requirements described in the Development Areas and the Plan Category Descriptions of the Operative Provisions of the 2030 Comprehensive Plan and Land Development Regulations.

By rezoning this property from RR-Acre to RLD-60, as suggested by Staff, this would allow for more residential properties on smaller lots but also keeping the residential character of the neighborhood intact.

If approved, compliance with the *2030 Comprehensive Plan* for site plan requirements would be reviewed during 10-set.

3. ***Does the proposed rezoning conflict with any portion of the City's land use regulations?***

No. The proposed rezoning is not in conflict with any portion of the City's land use regulations. If approved as recommended by the Staff of the Planning & Development Department, the subject property will be rezoned from RR-Acre to RLD-60 Zoning District as set forth in Section 656.313 of the Zoning Code.

SURROUNDING LAND USE AND ZONING

The subject properties are located on the north side of Dutton Island Road West, east of Sallas Lane. The surrounding uses, land use category and zoning are as follows:

Adjacent Property	Land Use Category	Zoning District	Current Use(s)
North	LDR	PUD 2002-1157-E	Duplexes
East	LDR	PUD 2002-1157-E	Duplexes
		RR-Acre	Power lines
South	LDR	RR-Acre	Single Family Homes
		RLD-90	Single Family Subdivision
West	LDR	RR-Acre	Single Family Dwelling

Single Family subdivisions off Dunn Creek Road and Bardin Road surrounding the subject property include PUD 2002-1157-E (duplexes on 75 feet wide lots), RLD-90, RLD-60, and RR-Acre Zoning Districts. Staff recommends that the application be approved for RLD-60. Approval of this rezoning to RLD-60 would provide for the development of a transitional and buffer lot size subdivision.

SUPPLEMENTARY INFORMATION

Upon visual inspection of the subject property on May 21, 2019, the required Notice of Public Hearing signs were posted.

RECOMMENDATION

Based on the foregoing, it is the recommendation of the Planning and Development Department that Application for Rezoning Ordinance 2019-314 be **APPROVED** for **RLD-60**.

MEMORANDUM

TO: Connie Patterson
Current Planning Division

FROM: Edward D. Lukacovic
Community Planning Division

RE: 2019-314

DATE: May 16, 2019

The following review is based on the information provided by the Current Planning Division staff

Description of Proposed Rezoning Application

Current Land Use: LDR Proposed Land Use: N/A
Current Zoning: RR-Acre Proposed Zoning: RLD-50 Acres: 18.00

Comprehensive Land Use Policy Analysis

Is the proposed rezoning district consistent with the functional land use category identified in the 2030 Comprehensive Plan?

YES NO

ZONING REQUEST:

The request is for a conventional rezoning from RR-Acre to RLD-50 to allow for a single-family subdivision.

LAND USE CATEGORY CONSISTENCY REVIEW:

The subject site is located on the east side of Dunn Creek Road and just north of the Bardin Road / Dunn Creek Road intersection and south side of Caney Oaks Drive. Both roads are classified as a local roads according to the City's Roadway Classification Map. The applicant seeks to rezone the property from RR-Acre to RLD-50 in order to develop a single-family subdivision. The application site is located in the LDR land use category within the Suburban Development Area as identified in the Future Land Use Map series (FLUMs) of the Future Land Use Element (FLUE) of the 2030 Comprehensive Plan. The site is also located in Planning District 6 and Council District 2.

According to the Future Land Use Element (FLUE), LDR in the Suburban Area is intended to provide for low density residential development. Single family dwellings are a principal use in the LDR land use category. The maximum allowable density for the LDR land use category is seven (7) units/acre when full urban services are available.

Based on the City's GIS Infrastructure Map there is a 6 inch sewer main on the south side of Caney Oaks Drive right-of-way adjacent to the subject site, an 8 inch sewer main on the north side of the Caney Oaks right-of-way, and a 6 inch sewer main on the west side of Dunn Creek Road right-of-way at the northern end of the subject site. In addition, there is an 8 inch water main on the north side of the Caney Oaks Drive right-of-way and a 12 inch water main on the eastern side of the Dunn Creek Road right-of-way along the frontage of the northern portion of the subject site.

To ensure compliance with the provisions of the Comprehensive Plan, zoning staff should analyze the proposed zoning application in relation to the following goals, objectives, policies and/or text of the 2030 Comprehensive Plan. This analysis should be included within the staff report for the zoning application.

Future Land Use Element:

- Policy 1.1.22 Future development orders, development permits and plan amendments shall maintain compact and compatible land use patterns, maintain an increasingly efficient urban service delivery system and discourage urban sprawl as described in the Development Areas and the Plan Category Descriptions of the Operative Provisions.

- Policy 1.2.9 Require new development and redevelopment in the Central Business District, Urban Priority Area, Urban Area, and Suburban Area to be served by centralized wastewater collection and potable water distribution systems when centralized service is available to the site. New septic tanks in this area maybe permitted only as interim facilities pursuant to the requirements of the Sanitary Sewer Sub-Element.

- Goal 3 To achieve a well balanced and organized combination of residential, non-residential, recreational and public uses served by a convenient and efficient transportation network, while protecting and preserving the fabric and character of the City's neighborhoods and enhancing the viability of non-residential areas.

- Objective 3.1 Continue to maintain adequate land designated for residential uses which can accommodate the projected population and provide safe, decent, sanitary and affordable housing opportunities for the citizens. Protect single-family residential neighborhoods by requiring that any other land uses within single-family areas meet all applicable requirements described in the Development Areas and the Plan Category Descriptions of the Operative Provisions of the 2030 Comprehensive Plan and Land Development Regulations.

- Policy 3.1.6 The City shall provide for development of a wide variety of housing types by area, consistent with the housing needs characteristics and socioeconomic profiles of the City's households as described in the Housing Element.

- Policy 3.1.11 The City shall require new residential areas to be designed to include an efficient system of internal circulation and connection to adjacent developments and neighborhoods. The Land Development Regulations shall detail the requirements for public access and interconnectivity within and between developments based on standards such as but not limited to a connectivity score, maximum separations between connections to adjacent developments, and rules relative to hours, operations, and public safety considerations for any restriction of access through the use of gates.

Recreation and Open Space Element:

Policy 2.2.2 The City shall require that all new single family and multi-family developments (residential developments) dedicate land for public parkland (active recreation parks) or provide monetary contribution to the appropriate department.

Policy 2.2.4 A residential subdivision of 25 lots to 99 lots shall pay a recreation and open space fee of two-hundred-fifty (\$250) dollars per lot, or provide at least four hundred thirty-five (435) square feet of useable upland for each lot (and any fraction thereof), to be dedicated as common area and set aside for active recreation. The City shall use recreation and open space fees collected pursuant to this subsection to improve, enhance, expand, or acquire recreation areas within the same Planning District in which the fees are paid.

Transportation Element

Policy 2.3.5 The City shall require that access to new single-family residential parcels with frontage along two or more roadways be located in accordance with the following parameters:

1. If one of the roadways is unimproved, access to the parcel may be provided from the improved roadway,
2. If the roadways are of differing functional classes, then access to the parcel shall be provided from the roadway with the lower functional class only,
3. If the roadways are of the same functional class, then access shall be provided as follows:
 - a. In the case of redevelopment of existing parcels, from the roadway where the prevailing pattern of existing driveways are located; or
 - b. In the case of new subdivisions where no pattern currently exists, on the roadway with the lower average daily traffic (ADT) inclusive of development traffic.
4. Driveways should be on the same road on which the parcel is addressed and the front door of the home is located, except in the case of an entirely new planned unit development or traditional neighborhood development where rear entry drives are expressly contemplated. The above parameters shall be followed unless it can be demonstrated in a professional traffic study submitted for review and approval to the Traffic Engineering Division and the JPDD, and with which the City staff agrees, that such access restrictions would either:
 1. present a safety hazard;
 2. would cause undue congestion or delay on adjacent road facilities;
 3. would cause environmental degradation; or
 4. would hinder adequate traffic circulation.

Infrastructure Element, Sanitary Sewer Sub-element:

Policy 1.2.6 Within the Suburban Boundary Map as defined in the Future Land Use and Capital Improvements Elements, new septic tanks will be forbidden pursuant to the Septic Environmental Protection Board – Rule 3; however, they may be permitted as interim facilities, provided the following requirements are satisfied:

1. Single family/commercial (estimated flows of 600 gpd or less):
 - a. Requirements of Chapter 64E-6, Florida Administrative Code (F.A.C.) are accommodated.
 - b. The collection system of a regional utility company is not available through gravity service via a facility within a right-of-way or easement which abuts the property.
2. Commercial (above 600 gpd)
 - a. Requirements of Chapter 64E-6, F.A.C. are accommodated.
 - b. The collection system of a regional utility company is not within 50 feet of the property.
3. Subdivision (commercial or single family):
 - a. Requirements of Chapter 64E-6, F.A.C. are accommodated.

- b. The collection system of a regional utility company is greater than 1/4 mile from the proposed subdivision.
- c. Each lot is a minimum of 1 acre unsubmerged property.
- d. Alternative (mounded) systems are not required.

The proposed rezoning has been identified as being related to the following issues identified in the 2030 Comprehensive Plan. Based on this relationship, the rezoning application should be carefully evaluated for consistency or inconsistency with the following issues and related goals, objectives and/or policies:

Archaeological Sensitivity

According to the Duval County Archaeological Predictive Model, the subject property is located within an area of high sensitivity for the presence of archaeological resources. Projects that move forward through the Site Review process may be required to perform a Professional Archaeological Reconnaissance Survey. If archaeological resources are found during future development/redevelopment of the site, Section 654.122 of the Code of Subdivision Regulations should be followed.

Historic Preservation Element

Policy 1.2.6 The Planning and Development Department shall maintain and update for planning and permitting purposes, a U.S.G.S. series of topographic maps upon which recorded archaeological sites are shown.

Required Attachments For Formal, Complete application

The following items must be attached to each application in the order prescribed below. All pages of the application must be on 8½" X 11" paper with provision for page numbering by the staff as prescribed in the application instructions manual. Please check each item below for inclusion of information required.

- Exhibit 1** A very clear, accurate and legible legal description of the property on the form provided with application package (Exhibit 1). The legal description (which may be either lot and block or metes and bounds) should not be a faint or distorted copy that is difficult to read or duplicate.
- Exhibit A** Property Ownership Affidavit – Notarized Letter(s).
- Exhibit B** Agent Authorization - Notarized letter(s) designating the agent.

Supplemental Information

Supplemental Information items are submitted separately and not part of the formal application

- One copy of the Deeds to indicate proof of property ownership.

Public Hearings And Posting Of Signs

No application will be accepted until all the requested information has been supplied and the required fee has been paid. Acceptance of a completed application does not guarantee its approval by the City Council. The applicant will be notified of public hearing dates on this application upon the filing of the application. The applicant or authorized agent **MUST BE PRESENT** at the public hearings. The required **SIGN(S)** must be **POSTED** on the property **BY THE APPLICANT** within 5 days after the filing of an application. The sign(s) may be removed only after final action of the Council and must be removed within 10 days of such action.

The applicant must also pay for the required public notice stating the nature of the proposed request which is required to be published in an approved newspaper **AT LEAST 14 DAYS IN ADVANCE OF THE PUBLIC HEARING.** (The Daily Record - 10 North Newnan Street, Jacksonville, FL 32202 • (904) 356-2466 • Fax (904) 353-2628) Advertising costs are payable by the applicant directly to the newspaper and the applicant must furnish **PROOF OF PUBLICATION** to the Planning and Development Department, 214 North Hogan Street, Ed Ball Building, Suite 300, Jacksonville, Florida, 32202, prior to the public hearing.

Application Certification

I, hereby, certify that I am the owner or the authorized agent of the owner(s) of the

property described herein, that all answers to the questions in this application and all information contained in the material attached to and made a part of this application, are accurate and true to the best of my knowledge and belief. I also attest by my signature that all required information for this rezoning application is completed and duly attached in the prescribed order. Furthermore, if the package is found to be lacking the above requirements, I understand that the application will be returned for correct information.

May 20, 2019

Project Name: Brockdorf Subdivision
Availability#: 2019-1659

Attn: Carman Brockdorf,

Thank you for your inquiry regarding the availability of electric, potable water, sanitary sewer and reclaimed water (WS&R) service. The eight digit availability number referenced in this letter will be the number JEA uses to track your project. Please reference this number when making inquiries and submitting related documents. This availability letter will expire one year from the date above.

Point of Connection:

A summary of connection points for WS&R services are identified on the following page. JEA recognizes Connection Point #1 as the primary point of connection (POC); however, a secondary, conditional POC will be listed if available. JEA assumes no responsibility for the inaccuracy of any service connection portrayed on a JEA utility system record drawing. JEA strongly recommends field verification of all POCs prior to any construction to ensure connection availability. If this availability request is for a sewer lateral, prior to relying on the described POC and/or any reference drawings, the applicant shall request and pay for a JEA field locate, for a cost of \$491.00, to determine the actual location and suitability of this potential POC. Please note the Special Conditions stated in each section contain pertinent information and additional requirements as well as further instructions.

Offsite Improvements:

For all utilities located in the public Right of Way or JEA easement, the new WS&R utilities shall be dedicated to JEA upon completion and final inspection, unless otherwise noted. It shall be the applicant's responsibility to engage the services of a professional engineer, licensed in the State of Florida. All WS&R construction shall conform to current JEA Water, Sewer & Reuse Design Guidelines which may be found on jea.com.

Reservation of Capacity:

This availability response does not represent JEA's commitment for or reservation of WS&R capacity. In accordance with JEA's policies and procedures, commitment to serve is made only upon JEA's approval of your application for service and receipt of your payment of all applicable fees.

A detailed overview of the process can be found at JEA.com. This document along with other important forms and submittal processes can be found at the subsequent link, JEA Stages of a Project or by following the steps below:

- ⇒ Visit www.jea.com
- ⇒ Select Working with JEA
- ⇒ Select Stages of a Project

Sincerely,

JEA Water, Sewer Reclaim
Availability Request Team

21 West Church Street
Jacksonville, Florida 32202-3139

ELECTRIC

WATER

SEWER

RECLAIMED

Availability#: 2019-1659
Request Received On: 5/15/2019
Availability Response: 5/20/2019
Prepared by: Susan West

Project Information

Name: Brockdorf Subdivision
Type: Single Family
Requested Flow: 17,500 gpd
Location: 12055 Dunn Creek Road, RE# 106527-0000
Parcel ID No.: 106527-0000
Description: Subdivision of parent tract into 50 lots

Potable Water Connection

Water Treatment Grid: NORTH GRID
Connection Point #1: Existing 12" water main within the Dunn Creek Rd. ROW, adjacent to this property.
Connection Point #2: Proposed 8" water main within the Dunn Creek Rd. ROW, adjacent to this property. Subject to project 2016-2056 utility acceptance.
Special Conditions: Fire protection needs to be addressed.

Sewer Connection

Sewer Treatment Plant: DISTRICT 2/CEDAR BAY
Connection Point #1: Existing 8" gravity sewer main within the Caney Oaks Dr. ROW.
Connection Point #2: Existing 6" sanitary force main within the Dunn Creek Rd. ROW, adjacent to this property.
Special Conditions: If gravity flow cannot be achieved, then connection to the JEA-owned sewer system for your project will require the design and construction of an onsite, JEA owned and maintained pump station, and a JEA dedicated force main (min. 4" dia.). For force main connection conditions, please email fmconnections@jea.com referencing this availability letter.

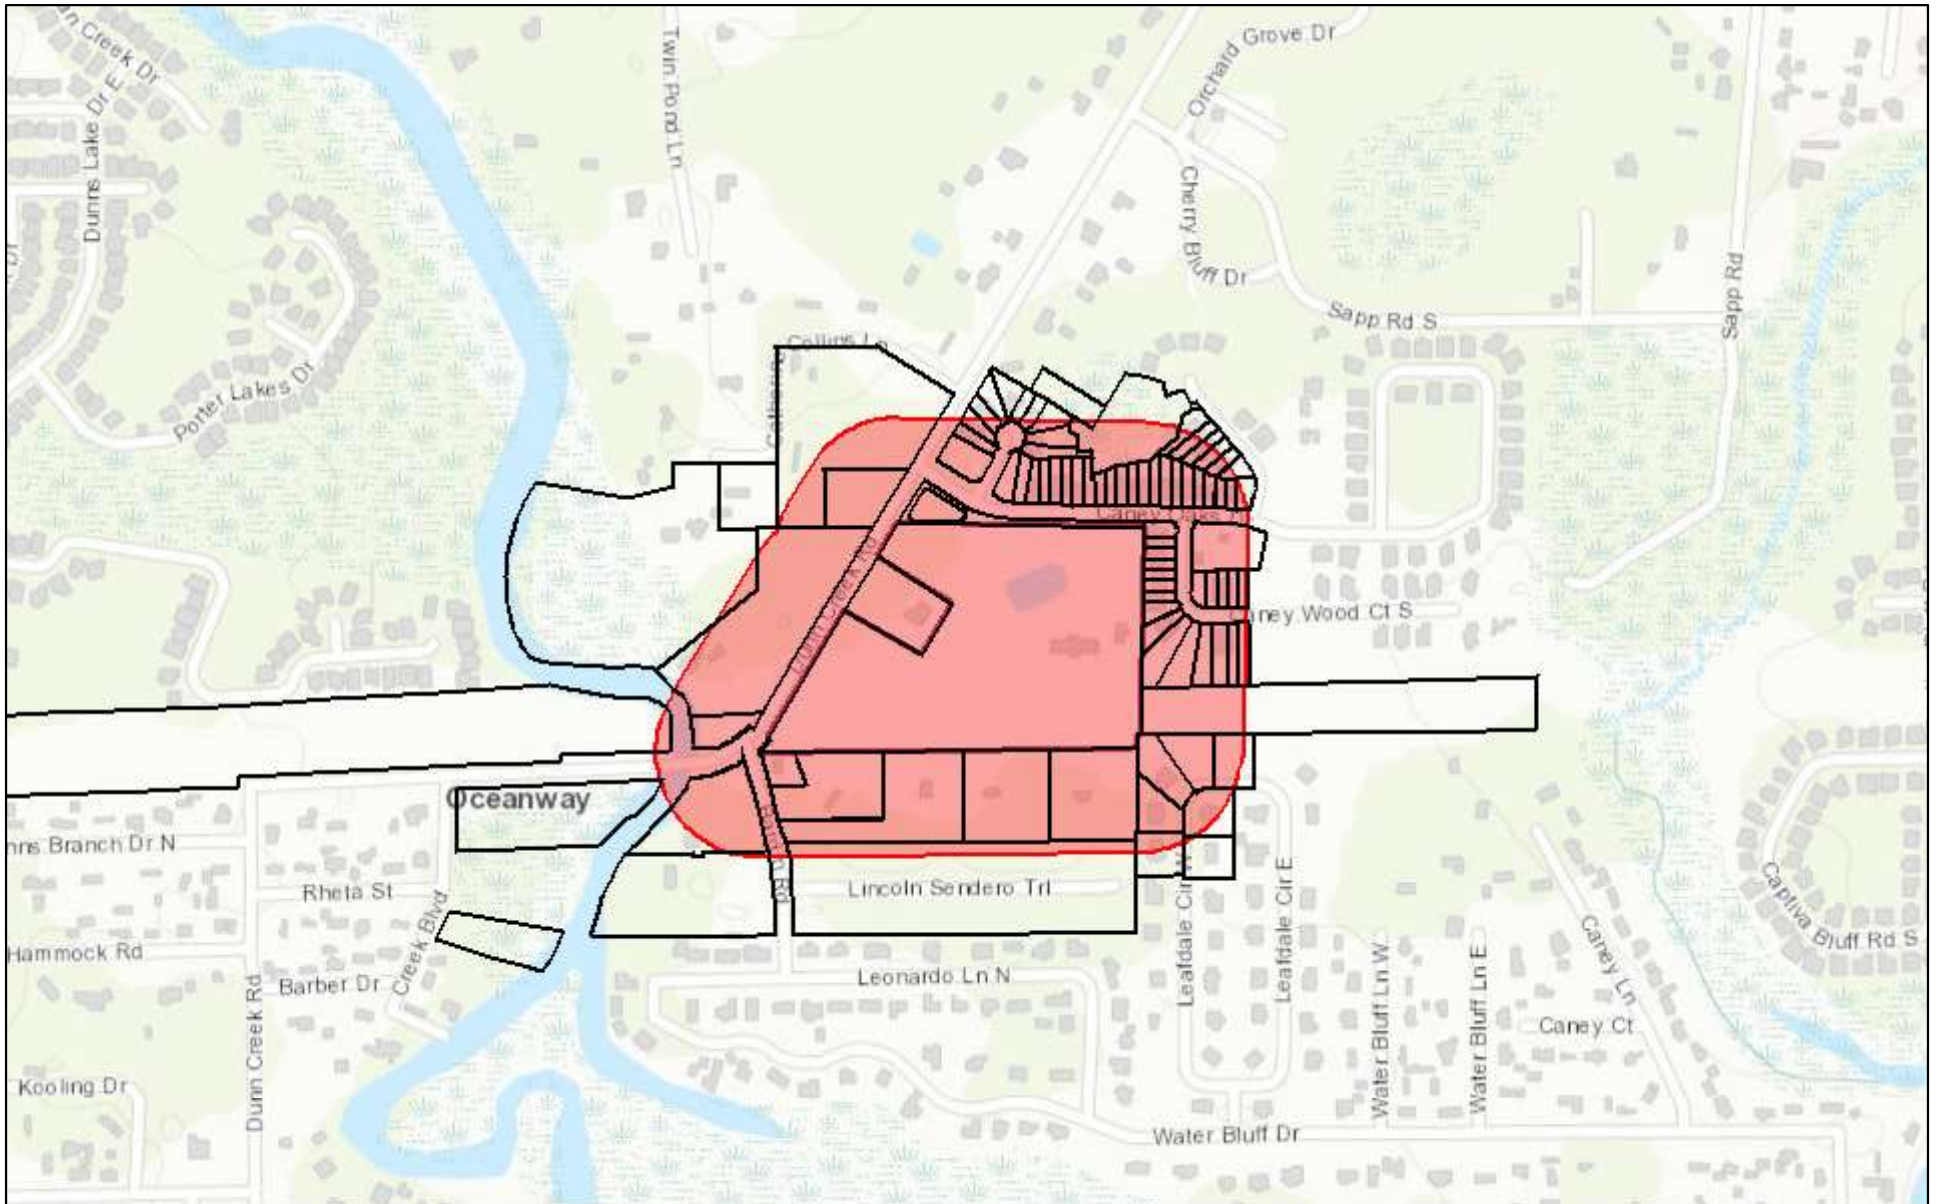

Reclaimed Water Connection

Sewer Region/Plant: NORTH GRID
Connection Point #1: Existing 18" reclaim main within the Faye Rd. ROW, approx. 6500 ft. south of this property.
Connection Point #2: NA
Special Conditions: Reclaimed water mains are not currently within the developer required main extension limits. In the interim, a temporary connection to the potable water system will be required. Coordinate the temporary connection with the JEA Development group so the configuration is designed to simplify the transition to reclaimed water when it becomes available. Exceptions to this condition may be requested and will be considered on a case-by-case basis.

General Comments:

Electric Availability: The subject property lies within the geographic area legally served by JEA. JEA will provide electric service as per JEA's most current Rules and Regulations. Connection to the proposed POC is contingent upon inspection and acceptance of the proposed mains by JEA. JEA must approve construction and accept the proposed mains prior to acceptance of this project. Point of connection location(s) to be field verified by developer during project design. Send pre-application meeting requests, with availability number, to wsedevprojrequests@jea.com. Copies of reference drawings may be requested from the JEA Record online at https://www.jea.com/engineering_and_construction/request_an_as-built_drawing/.
