Based on a site visit and inspection by the FDOT, Bridge 724050 on Old Plank Road has guardrails that require an upgrade to current FDOT Standards. This would be a safety upgrade providing the driving public with traffic railing that will better resist errant vehicles from breaking through the railing and crashing into the creek. The repair items associated with this project constitute safety upgrades and maintenance to the bridge guardrail and expansion joints. Deferral of this amendment to the CIP would be detrimental to the best interest of the community because such deferral would result in the unnecessary delay of repairing critical transportation infrastructure.
