- 4. Presentation:** Sarah Green, Strategic Partnerships Coordinator, 2020 Census provided an overview of the Duval Counts Campaign for the 2020 Census. Ms. Green explained that every 10 years the federal government conducts a population count of everyone in the United States. Data from the census provides the basis for distributing billions in federal funds annually to communities. These funds support vital programs—impacting housing, education, transportation, employment, health care and public policy. Beginning in mid-March, citizens will receive a notice in the mail to complete the 2020 Census. For the first time ever, the U.S. Census Bureau will accept responses online, as well as by phone or mail if you prefer. In May, the U.S. Census Bureau will begin following up in person with households that haven't responded. The Census Bureau has a robust cybersecurity program used to protect everyone's identity. Ms. Green informed CPAC members that the Census Bureau will never ask for Social Security numbers; bank or credit card account numbers; money, donations, or anything on behalf of a political party.
