This schedule contains the vehicles that will be replaced in FY22 as approved by Council. In order to receive the replacement vehicle the "old vehicle" as stated here by vehicle number must be turned in. Fleet Management has the option to keep turned in patrol vehicles on the City cap to be used exclusively for JSO wreck replacements and to keep JFRD apparatus on the City cap for one fiscal year for various purposes. Any changes to this schedule will have a financial impact in FY22. Fleet Management maintains all related documentation pursuant to section 106.216.

Health Department Programs FY 2021-2022 Total Program Funding: \$755.535

Sexually Transmitted Disease Prevention Program

The Sexually Transmitted Disease Program Office of the Florida Department of Health in Duval County is responsible for the prevention and control of STDs including HIV as required by Chapter 384 Florida Statutes. More specifically, the Department is required, per Section 384.26, F.S., to investigate the source and spread of disease in our community. This includes ensuring all providers and laboratories that diagnose and treat an individual for a sexually transmissible disease also report the information in an appropriate and timely manner for STD surveillance and monitoring of STD trends. Education and consultation are available for providers to make certain that they are treating individuals according to current CDC STD treatment guidelines. Investigation of the infected individuals and their partners is conducted by Field Services unit and Disease Intervention Specialists (DIS). The Field Services Unit and DIS are the frontline defense in the prevention and control of STDs. They link thousands of people to medical assessments and treatments for bacterial STDs and HIV. Their work is critical to the collective public health mission. Their investigative skills are key components of emergency and outbreak response, STD/HIV exposure notification, and other infectious disease control efforts when called upon. The population growth of Duval County is expected to continue and with it, the expected volume of records and reported morbidity will also grow. The current STD structure is not adequate to meet the existing and projected needs of the community. Additional funding for the STD program is an investment in the Duval County community. Increased resources will expand our ability to provide timely initiation of services to ensure appropriate treatment has been given, investigate the source of disease, provide education and outreach to some of the most vulnerable individuals in our expanding community.

Immunization Program

In 2016, after Agape Community Health Center, Inc. became independent, DOH-Duval with the support of the City of Jacksonville established the South Jacksonville Immunization Center. This gave us the opportunity to ensure continued access to immunizations for children and adults in the area. The diverse population receiving immunizations at our center are offered services on a scheduled and walk-in basis. The South Jacksonville Immunization Center continues to be a valuable source of immunizations, information, and education. This site is particularly vital as we see an increase in the number of medical providers who either no longer offer immunizations or do so only in a limited capacity. In 2017, we launched a campaign to increase awareness on the importance of vaccines. Our marketing included billboards, buses, bus shelters, local magazines, and radio ads. We have managed to increase our 2-year-old immunization rates from 93% in 2017 to 98.7% in 2018. We have exceeded the goal of 95%. Our Kindergarten immunization rate stands at 94.7% and our 7th grade rate is 96.9%. South Jacksonville Immunization Center served 5,140 clients in 2018 and provided over 29,000 services. The team has increased outreach efforts to the community by making reminder calls and participating in events throughout the community. It is important to maintain high immunization rates to guard against vaccine preventable diseases. Since October 1, 2016, South Jacksonville Immunization Center has provided the following services; Total number of services (adult and children immunizations, TB screening) provided: 108,889 and total number of clients served: 18,508

Primary Care Program

Due to the Covid-19 pandemic many of our resources have shifted to better combat what lies ahead. As a result, more resources are needed to ensure DOH-Duval can continue to provide the same level of service to our primary care clients who we serve day in and day out. DOH-Duval operates a number of health centers and clinics at community-based sites. DOH-Duval provides pediatrics and women's health, dentistry, maternity care and family planning services to our underserved. Our pediatricians, nurses, dentists, and dental assistants provide comprehensive care to infants and children in our centers, including being on call 24 hours a day for emergencies. With the appropriation of these funds, DOH-Duval will be able to continue to provide these much-needed services to our community in the same manner as before. Cutting or reducing these services would have a negative impact on public health.

Hospital Emergency Room Alternative Program

DOH-Duval's Hospital Emergency Room Alternative Program (HERAP) was transitioned in 2017 to focus on clinicbased case management and education. This program was initially an ER diversion program designed to improve health outcomes for uninsured, underinsured, and low-income residents of our community. After our separation from Agape in 2016, the program underwent changes. We have now expanded our scope to provide case management and education services to HIV clients with co-morbidities (asthma, diabetes and hypertension). Nutritional counseling is also provided for these clients. Self-Management workshops (diabetes and chronic disease aka Living Healthy Workshops) are taught by our qualified staff in conjunction with our community partner AHEC. Changes/current year information; We have moved from servicing uninsured, underinsured only patients to providing case management and education services to HIV clients with co-morbidities (diabetes and hypertension). Services include: Nutrition counseling for diabetes, hypertension, hyperlipidemia and obesity; Hemoglobin A1C and lipid point-of-care testing in clinics and in the community; Case management services; Outreach events to get persons living with HIV into care and link to chronic disease management and In addition, we continue to provide medication assistance programs to our clients. Disease Control Management is vitally important to our community. Resources will allow DOH-Duval to be better positioned to respond and combat any and all disease outbreaks that affect our community. These include but are not limited to COVID-19, Tuberculosis, Hepatitis A, Zika and many others. With the appropriation of these funds, DOH-Duval will be able to continue to provide these much-needed services to our community. Cutting or reducing these services would have a negative impact on public health.
