RE: Public Nuisance Abatement Board

I started my career in the commercial real estate industry in 2005 after graduating from the University of Florida. I've lived in Jacksonville off and on for 30 years. In 2007 I took a job with Sleiman Enterprises as Senior Property Manager. In 2010 I was promoted to Director of Property Management where I oversaw the day-day operations of their real estate portfolio. The Jacksonville Landing was not under my supervision.

Throughout my career, I've managed over 200 commercial real estate assets. I feel I would be a great candidate given my commitment to improving Jacksonville, and my knowledge of how to effectively operate a commercial development. I would like the opportunity to further discuss my career, our city, public safety, and how I can assist this Board.

Please feel free to reach out to me with any questions at (904) 524-5995.
