Sec. 380.102. - Definitions.

As used in this Part:

Construction and demolition debris means discarded materials generally considered to be not water-soluble and nonhazardous in nature, including, but not limited to, steel, glass, brick, concrete, asphalt material, pipe, gypsum wallboard, and lumber, from the construction or destruction of a structure as part of a construction or demolition project or from the renovation of a structure, including such debris from construction of structures at a site remote from the construction or demolition project site. The term includes including rocks, soils, tree remains, trees, and other vegetative matter that normally results from land clearing or land development operations for a construction project; clean cardboard, paper, plastic, wood, and metal scraps from a construction project; except as provided in Section 403.707(9)(j), F.S., unpainted, non-treated wood scraps from sources other than construction or demolition projects; scrap from manufacturing facilities that is the type of material generally used in construction projects and that would meet the definition of construction and demolition debris if it were generated as part of a construction or demolition project, including debris from the construction of 26 manufactured homes and scrap shingles, wallboard, siding, 27 concrete, and similar materials from industrial or commercial facilities and de minimis amounts of other non-hazardous wastes that are generated at construction or demolition projects, provided such amounts are consistent with best management practices of the construction and demolition

industries. Mixing of construction and demolition debris 1 with other types of solid waste will 2 cause it to be 3 classified as other than construction and demolition debris. Construction and demolition debris recycling facility means a 4 is authorized to 5 facility that receive and recycle construction and demolition debris. 6 7 Construction and demolition waste reduction facility means a 8 facility that is authorized to receive non-presorted 9 construction and demolition debris for materials recovery. 10 Director means the Director of the Public Works Department. 11 12 Materials recovery means any process by which one or more of 13 the various components in solid waste is separated and concentrated for reuse. 14 15 Non-presorted construction and demolition debris means 16 construction and demolition debris that arrives at a 17 construction and demolition debris facility in a mixed form without prior separation into categories based upon the type, 18 19 quality and characteristic of debris discarded. 20 Off specification waste means wastes that require a manifest 21 and that are received for deposit either without a manifest 22 or not as specified on the accompanying manifest. 23 24 Sec. 380.104. -Initial Application for certificate; fee; 25 proof of financial ability. 26 For each site for which a certificate is sought, a separate 27 application for a certificate shall be filed in quadruplicate with the Director. The application shall be on a form designated by the 28 29 Director and at a minimum shall contain the following: 30 \* \* \* 31 (i) The applicant shall include in each application an - 3 -

1 identification of the type of facility being proposed (solid waste disposal facility, landfill, clean debris recycling 2 3 facility, construction and demolition debris recycling 4 facility, construction and demolition waste reduction 5 facility, transfer station, incinerator facility, biomedical 6 waste treatment facility, regulated garbage treatment 7 facility, yard trash recycling facility, or other category 8 solid waste management facility). 9 10 Sec. 380.108. -Operation of solid waste disposal or 11 management facility. 12 The following regulations apply to the operation of a solid 13 waste disposal or management facility: 14 15 (p) For a solid waste management facility identified as a construction and demolition debris recycling facility, clean 16 17 debris recycling facility, or yard trash recycling facility, or construction and demolition waste reduction facility, as 18 19 specifically indicated on their initial, renewal or CON 20 modification application and/or was previously approved by 21 Council as such a facility based on their facility 22 description provided in their application, а minimum 23 recycling percentage shall be required on a semi-annual basis 24 for these facilities. The minimum recycling requirement shall apply to all new, renewal and modification applications 25 26 received after June 1, 2019, and the minimum recycling 27 requirements shall be as follows for each of the subsequent 28 years after: 29

Construction and Demolition Debris Recycling Facilities
2019 80% Minimum Recycling

30

31

1	2020 82% Minimum Recycling
2	2021 84% Minimum Recycling
3	2022 85% Minimum Recycling
4	2023 86% Minimum Recycling
5	2024 and subsequent years 87% Minimum Recycling
6	
7	Yard Trash/ Clean Debris Recycling Facilities
8	2019 90% Minimum Recycling
9	2020 92% Minimum Recycling
10	2021 94% Minimum Recycling
11	2022 95% Minimum Recycling
12	2023 97% Minimum Recycling
13	2024 and subsequent years 98% Minimum Recycling
14	
15	Construction and Demolition Waste Reduction Facilities
16	2022 and subsequent years 20% Minimum Recycling
